1 The Institution ensures effective curriculum planning and delivery through a well-planned and documented process including Academic calendar and conduct of Continuous Internal Assessment (CIA)

PCE is affiliated to RTU, Kota and follows the planned and prescribed curriculum of University. The Internal Quality Assurance Cell (IQAC) of PCE takes the responsibility of monitoring the effective delivery of the curriculum through a well-planned and documented process. To ensure effective curriculum delivery, a Curriculum Delivery Plan (CDP) is prepared by all PAC's of the respective departments. A CDP includes detailed planning for preparation, verification, execution and adherence to all documents related to academic delivery of all courses. As per the directions received from IQAC, the Examination cell plans for the Continuous Internal Assessment. Examination cell then circulate CIA planning to the PAC. Examination cell sends all the CIE Data to Director's Office for the final approval before its submission to RTU. Detail outlines are as follows.

1. Director Office, PCE receives the curriculum from RTU, Kota through university website.
2. IQAC prepares institute academic calendar aligned with RTU academic calendar considering input received in last GC meeting and other stakeholders. IQAC forwards the Institute Academic Calendar to PAC (Program Assessment Committee) for identifying curriculum gaps and examination cell for CIE. PACs then prepares CDPs after consolidating the course specific planning received from the respective faculty members.
3. A CDP includes activities for gap abridgement which are proposed to be carried out by the faculty members.
4. IQAC also instructs PACs to prepare the department activity calendar. PACs receives approval of department activity calendars and CDPs from DABs before its final approval from IQAC.
5. IQAC also reviews the CDPs approved by DABs and gives suggestions/ approvals periodically. All the activities (SPL, Industrial visit, workshop etc.) planned are taken into consideration for the Department activity calendar after the approval from DABs.
6. Subject wise Course files are prepared by respective faculty, comprising of Syllabus, ABC analysis, Blown-Up, Deployment, Lecture notes, Zero Lecture, Tutorial and Assignment sheets, COs Statements, and Mapping with POs and PSOs.
7. Faculty frequently use ICT tools for more effective content delivery using PPTs, video lectures etc.
8. Student attendance is monitored by tutors and chief proctor office with help of SHARP ERP software. Attendance defaulters are regularly counseled through their tutors for improving their attendance.
9. Institute also conducts Annual Internal Academic Audit for the effectiveness of teaching-learning methodologies and the necessary actions are taken as suggested by the audit team.
10. Conferences, seminars, webinars, workshops, expert lectures, STTPs, and FDPs are organized throughout the year on the recent advances in the field of engineering.
11. Continuous Internal Assessment process includes Midterm exam, Tutorials, Assignments, Quizzes, presentation, Class Test, viva-voce etc.
12. As per the RTU examination scheme, mid semester examinations are conducted centrally by examination cell as per the planning & academic calendar and other assessments are conducted at departmental level.
13. All the evaluations are carried out by the faculty members which include COs-POs attainment, Gap identification & action taken for the fulfillment of gap.
14. Student feedback and attainment of COs-POs are reviewed by the PAC for any revision in planning & Delivery.
15. End term semester examinations are conducted by the RTU, Kota.

2 Vision & Mission Statements

2.1 Vision & Mission Statements of the Institute

Vision of Institution

To create knowledge based society with scientific temper, team spirit and dignity of labor to face the global competitive challenges

Mission of Institution

To evolve and develop skill based systems for effective delivery of knowledge so as to equip young professionals with dedication & commitment to excellence in all spheres of life

2.2 Vision & Mission Statements of the Programme B. Tech. (Advance Computing)

2.2 Vision & Mission Statements of the Programme B. Tech. (Advance Computing)

2.2.1 Vision of Department

Become most preferred department for the latest Advance Computing programs through creating appropriate teaching-learning and skill up gradation environment that fulfill current industry needs.

2.2.2 Mission of Department

- To create experiential learning environment that will enable students to compete globally in Advance Computing domain.
- To adapt latest technological tools and contribute significantly for the advancement of knowledge in Advance Computing application in industry, society and environment.
- To inculcate essential characteristic in the students for their all-round professional development, interaction with industry and society and lifelong learning.
- To create R & D infrastructure and centre of excellence in various Advance Computing sub domains.

2.2.3 PEO of the Department

Program Educational Objectives (PEOs) (ARTIFICIAL INTELLIGENCE)

- PEO1: Gradates will exhibit knowledge and expertise to design and develop solution for complex engineering problem of industry and society efficiently using Artificial Intelligence.
- PEO2: Gradates will be able to occupy lead position through their problem solving skills and life-long learning ability.
- PEO3: Gradates will have strong professional ethics, social & moral values, entrepreneurial ability and interaction with society & industry.

Program Educational Objectives (PEOs) (**ARTIFICIAL INTELLIGENCE (AI) AND DATA SCIENCE**)

- PEO1: Gradates will exhibit expertise in the field of Artificial Intelligence & Data Science applications in the industries occupying lead position to deal with societal and environmental issues.
- PEO2: Gradates will possess good interaction ability in team and as individual with life-long learning ability to resolve societal problem using AI & DS.
- PEO3: Gradates will exhibit commitment towards the society and industry with high professional ethics and moral values

Program Educational Objectives (PEOs) (**CYBER SECURITY**)

- PEO1: Gradates will have expertise in protecting and securing the data and information using the cyber security concepts, tools & technologies.
- PEO2: Gradates will possess strong technical and entrepreneur skills to secure IT frameworks and carryout risk analysis with life-long learning ability.
- PEO3: Gradates will possess good communication skills while interacting with industry and society to protect the data and information with significant knowledge and implementation skills of cyber laws, professional ethics and leadership attributes.

2.2.4 Program Specific Outcome (PSOs)

ARTIFICIAL INTELLIGENCE

- PSO1: Apply the knowledge of Artificial Intelligence, machine learning, Human Computer Interaction in any societal, industrial and environmental application.
- PSO2: Demonstrate skills to design, develop and investigate complex real time problems using AI and its tools by working individual or in groups as a leader or member of the team following professional ethics and human values.
- PSO3: Adapt, analyze, investigate the problems and provide solutions for interdisciplinary problems using modern and advance AI tools and techniques possessing lifelong learning ability.

ARTIFICIAL INTELLIGENCE (AI) AND DATA SCIENCE

- PSO1: Apply knowledge of AI and data science in developing intelligent and context-aware applications/systems/ processes to facilitate industry and Society.

- PSO2: Demonstrate skills to learn, adapt and utilize various technologies and the tests for development of AI and Data Science based solutions to environmental/ societal and industry problems.
- PSO3: Analyze and interpret huge and complex data individually and in team for development of sustainable solution possess ethical behavior/ critical thinking and lifelong learning.

CYBER SECURITY

- PSO1: Apply fundamental knowledge of computer science engineering including software development and testing, application design, development and deployment using artificial intelligence, tools and techniques for social, industrial and environmental applications.
- PSO2: Understand, design, development and deployment of Cyber Security solution to various emerging threats in using mobile and internet base technologies and tools.
- PSO3: Work individually and in team with the good communication skill, ethical behavior and develop completed and sustainability solution for cyber security and other computer security domain issues related to industry and society.

2.3 Program Outcomes (PO)

Engineering Graduates will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

- 10. Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- 11. Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- 12. Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

3 Department Academic & Administrative Bodies - Structure & Functions

3.1 Department Advisory Board (DAB)

3.1.1 Primary Objective

Department Advisory Board (DAB) of Department Of Advance Computing, PCE, Jaipur is formed to provide necessary suggestions for developing a structured approach for continuous improvement in curriculum delivery, planning and incorporation of Curricular, Extra and Co-Curricular activities needed to abridge the pre-identified curriculum gaps.

3.1.2 Roles & Responsibilities

1. Suggest improvement in academic plans and recommend standard practices/system for attainment of Program Educational Objectives, Program Outcomes, Program Specific Outcomes and Course Outcomes.
2. Provide guidelines for industry-institute interactions to bridge up curriculum/industry gap and suggest quality improvement initiatives to enhance employability.
3. Develop a structured Curriculum Delivery Plan, Department Academic Calendar and seek approval for them from Internal Quality Assurance Cell.
4. Incorporate suggestions received from Program Assessment Committee (PAC) by including proposed activities for bridging curricular gaps identified.
5. To identify and suggest thrust areas to conduct various activities (final year projects, training courses and additional experiments to meet PEOs, and propose necessary action plan for skill development of students, required for entrepreneurship development and quality improvement.

3.1.3 Department-Wise Composition

3.2 Program Assessment Committee

3.2.1 Primary Objective

The primary objective of Program Assessment Committee (PAC) is to identify bridge and assess the gaps in Program's Curriculum received from University through attainment calculation.

3.2.2 Roles & Responsibilities

1. Identify gaps in curriculum laid down by University and propose activities for bridging identified gaps.
2. Implement academic plans and standard practices/system for attainment of Program Educational objectives, Program Outcomes, Program Specific Outcomes and Course Outcomes.
3. Regular Monitoring of curriculum gap abridgement and course deployment practices through pre-defined methods.
4. Execute Industry-Institute Interactions to enhance the employability thereby meeting the industry standards and requirements.
5. Implement Curriculum Delivery Plan & Department Academic Calendar.

3.2.3 Department-Wise Composition

| S. No. | Category | Name of Members |

This document is meant as guidelines for implementing Outcome based education system as a part of NBA process.

1. **Vision & Mission of Department: Statement and Mapping with Institute Mission** Here you have to include department mission & vision statements and show mapping of keywords with institute mission.
2. **Program Educational Objectives (PEOs): Statement and Mapping with Department Vision & Mission** Here you have to include department PEO statements and show mapping of keywords with department vision & mission.
3. **Program Specific Outcome (PSOs): Statement and Mapping with Department Vision & Mission** Here you have to include department PSO statements and show mapping of keywords with department vision & mission.
4. **Program Outcome (POs): Statement and Mapping with PEO and PSO** Here you have to include PO statements and show mapping of keywords with department PEOs & PSOs.
5. **Course Plan (Deployment):**

(Please write how you intend to cover the contents: i.e., coverage of Units by lectures, guest lectures, design exercises, solving numerical problems, demonstration of models, model preparation, or by assignments, etc.), **for example**

O coverage of Units by lectures
O design exercises
O demonstration of models
O by assignments

6. **Course Outcomes:** Look for strong mapping of course with specific PO (2-3). Define Generic Course Outcomes (max 4 to 6) using Blooms Taxonomy. (In case of Lab Course define generic Lab Outcomes LO and refer CO as LO in this document).

- i. 4CSA101.1(CO1)-
- ii. 4CSA101.2(CO2)-
- iii. 4CSA101.3(CO3)-
- iv. 4CSA101.4(CO4)-
- v. 4CSA101.5(CO5)-

7. CO-PO-PSO Mapping: Mapping Levels: 1- Low, 2- Moderate, 3-Strong

First try to find out 2-3 POs that are strongly related to your subject contents. Go through the contents and try to formulate 4-5 Course Outcome as per bloom taxonomy. Map each CO with PO and PSO as above. While mapping please rethink if you map any PO with 3, it means you are planning to deliver the contents of that level and you will also examine the students at that level.

| CO | PO | | | | | | | | | | | | PSO | | |
|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|------|------|------|------|------|

O PO2: Write full statement with keywords highlighted
 O PO3: Write full statement with keywords highlighted
 O PO4: Write full statement with keywords highlighted

7.2 PO Moderately Mapped: (Example)

O PO1: Write full statement with keywords highlighted
 O PO11: Write full statement with keywords highlighted

7.3 PO Low Mapped: (Example)

O PO12: Write full statement with keywords highlighted

7.4 PSO Strongly Mapped: (Example)

O PSO1 : Write full statement with keywords highlighted

7.5 PSO Moderately Mapped: (Example)

O PSO2: Write full statement with keywords highlighted

6.6 PSO Low Mapped: (Example)

O PSO3: Write full statement with keywords highlighted

8. Rules for CO/LO Attainment Levels: (Targets)

All the courses of your department should be divided into three categories A-Most Difficult course, B-Medium level of Difficulty, C-Low level of Difficulty-(Easy)
 According to difficulty level, you can decide specific range for CO attainment targets for Continuous assessment from the following table.
 Remember that targets for internal assessment should be higher.

| CourseCategory | Level3 | Level2 | Level1 |
|----------------|------------------------------------|---------------------------------------|---------------------------------------|
| A | 60% of students getting >60% marks | 50-60% of students getting >60% marks | 40-50% of students getting >60% marks |
| B | 80% of students getting >60% marks | 60-80% of students getting >60% marks | 40-60% of students getting >60% marks |
| C | 90% of students getting >60% marks | 70-90% of students getting >60% marks | 40-70% of students getting >60% marks |

9. EndTermRTUComponent: COAttainment Levels

All the courses of your department should be divided into three categories A-Most Difficult course, B-Medium level of Difficulty, C-Low level of Difficulty-(Easy)

According to difficulty level and the results of past 3-5 years, you can decide specific range for CO attainment targets for RTU component from the following table.

| CourseCategory | Level3 | Level2 | Level1 |
|----------------|------------------------------------|---------------------------------------|---------------------------------------|
| A | 50% of students getting >60% marks | 40-50% of students getting >60% marks | 30-40% of students getting >60% marks |
| B | 60% of students getting >60% marks | 40-60% of students getting >60% marks | 30-40% of students getting >60% marks |
| C | 80% of students getting >60% marks | 60-80% of students getting >60% marks | 40-60% of students getting >60% marks |
| | | | |

For the specific CO/LO attainment level of your respective course, please use the above tables as reference according to your subject difficulty level and prepare the following table.

| S. No. | CourseType | Attainment Level=1 | Attainment Level=2 | Attainment Level=3 |
|--------|---------------------------------------|--------------------|--------------------|--------------------|

13.1.4: Activities Decided to bridge the gap

Please do an analysis of whether you could get improvement through activities decided and conducted for improvements. Reason should be noted why / how it is improved or not.

13.2 Attainment of POs & PSO:

13.2.1 Target-Expected Attainment of PO by attainment of CO- Put all mappings of 3, 2 and 1. Based on CO-PO mapping, determine targets for each PO as average of targets of all relevant COs.

- ii.

13.2.5 Activities Decided to bridge the gap

Please do analyze whether you could get improvement through activities decided and conducted for improvements. Reason should be noted why / how it is improved or not.

Repeat whole process after one month, Two months, and three months. Plot bar chart for improvement in CO, PO & PSO. (Every month)

13.3 Attainment of CO through RTU Exam:

This may be possible for previous semester results so overall attainment. If faculty is changed, data will be evaluated by concerned faculty who taught and handed over to current faculty. If faculty not available, then current faculty will do the same.

b). *Journals & Handbooks:* - To give information about different Journals & Handbooks available in library related to the subject and branch.

c). *Associations and Institutions:* - To give information about different Associations and Institutions related to the subject and branch.

8). Syllabus Deployment: -

a). *Total weeks available for academics (excluding holidays) as per Poornima Foundation calendar-*

| | |
|--|--|
| Semester | |
| No. of Working days available(Approx.) | |
| No. of Weeks (Approx.) | |

- Total weeks available for special activities (as mentioned below)- 02 weeks (Approx.)

Note: Individual faculty must calculate the exact no. of lectures available according to time table etc. after consultation with HOD.

b). *Special Activities* (To be approved by HOD & Dean & must be mentioned in deployment):

- Open Book Test- Once in a semester
- Quiz - Once in a semester
- Special Lectures (SPL)- Minimum 10% of total no. of lectures including following
 - Smart Class by the faculty, who is teaching the subject
 - SPL by expert faculty at PGC level
 - SPL by expert from industry/academia (other institution)
- Revision classes (Solving Important Question Bank):- 1 class before Mid Term and 2 classes before End Term Exam

c). *Lecture schedule per week*

i). University scheme (L+T+P) = ...+....+.....

| Sr. No. | Name of Unit | No. of lectures | Broad Area | Degree of difficulty (High/Medium/Low) | Text/ Reference books |

d). *Introduction & Conclusion:* Each subject, unit and topic shall start with introduction & close with conclusion. In case of the subject, it is Zero lecture.

e). *Time Distribution in lecture class:* - Time allotted: 60 min.

- First 5 min. should be utilized for paying attention towards students who were absent for last lecture or continuously absent for many days + taking attendance by calling the names of the students and also sharing any new/relevant information.

- ii. Actual lecture delivery should be of 50 min.
- iii. Last 5 min. should be utilized by recapping/ conclusion of the topic. Providing brief introduction of the coming up lecture and suggesting portion to read.
- iv. After completion of any Unit/Chapter a short quiz should be organized.
- v. During lecture student should be encouraged to ask questions.

Note: Pl. ensure that each student is having Lecture Note Book. Also, write on the black board day and date, name of the teacher, name of subject with code, unit and lecture no. and topics to be covered at the beginning of each lecture and ensure that students write in lecture note book. Ask students to leave 4/5 pages blank for copying the note from fellow students in case of their absenteeism.

9). Tutorial: - An essential component of Teaching- Learning process in Professional Education.

Objective: - To enhance the recall mechanism.
 To promote logical reasoning and thinking of the students.
 To interact personally to the students for improve numerical solving ability.

a). *Tutorial processing:* - Tutorial sheet shall be provided to each students

Ist Phase: - It is consisting of questions to be solved in the class assignment session in test mode on perforated sheet given in tutorial notebook and to be collected & kept by respective faculty for review & analysis (20 minutes).

IInd Phase: - Indicating/Initializing the weak issues/ drawback and Evaluating and providing the grade. Making a group with good student for assisting the weak students to explain/solve questions by every student on plain papers given in tutorial note book (20 minutes).

IIIrd Phase: - Solving/ explaining difficulties of lecture class and providing the new home assignment (20 minutes). To be done in tutorial note book.

b). *Home assignment shall comprise of two parts:*

Part (i) Minimum essential questions, which are to be solved and submitted by all with in specified due date.

Part (ii) Other important questions, which may also be solved and submitted for examining and guidance by teacher.

10). Examination Systems:

A. FOR ALL THEORY COURSES:-
