ABOUT THE ACTIVITY:

Physical Education is an integral part of the total education system. It helps in the attainment of the ultimate aim of education i.e. the achievement of holistic development. Games and Sports play a vital role in the student's life. A student should study hard to be successful in competitive examinations. But, he should also play games and sports to enjoy the health and vigor of life. Along with bookish learning, a student should spend his time on games and sports also. Either study or work alone makes us exhaust. We remain no longer efficient to do any work. Sports remove our mental exhaustion. Education without sports is incomplete.

Rajasthan Technical University, Kota introduced a new syllabus for B.Tech. I year in this academic session. Under the syllabus of Sports I (1FY8-01), physical education for the holistic development of the students was ensured.

OBJECTIVES OF THE ACTIVITY:

Physical Education programmes aim at fostering the whole-person development of students. It helps students improve their physical abilities, increase their knowledge of physical activities, and enhance their confidence and motivation to participate in physical activities, so that they can ultimately cultivate a lifelong habit of participating in physical activities and enhance their physical fitness and health. Through taking part in different sports activities, students can strengthen their generic skills and develop positive psychological traits, which enable them to become physically, mentally and socially fit to confront difficulties in the challenging workplace in the future.

DETAILS OF ACTIVITY:

Under the above syllabus activities of volleyball, stretching and yoga were organized for the First Year students of Poornima College of Engineering. Activities were performed for 40 minutes each. Students were taken to the ground in the batches of 22 each. 2 batches performed activities at a time. Students were divided for all 3 activities and got an opportunity to continue each activity for 40 minutes. Thus every student devoted 120 minutes for this session. It enabled the students to have fun, learn new sports, enhance social interaction and tests one's physical capability. This also offered a break from the daily routine tasks and recreate or re-energetic them. The activities were performed under the supervision of Sports Club of PCE.

The outcome of the activity was that the students became aware about personal health and impacts of sports and physical activities on it.
