Ministry of Education (MoE)

5b036299703485aad4c1893a78cdfa0c

A candidate is considered **qualified** if the marks secured are greater than or equal to the qualifying marks mentioned for the category, for which a valid category certificate, if applicable, must be produced along with this Score Card.

This Score Card is valid up to 31st March 2027.

GATE SCORE COMPUTATION

The GATE 2024 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where

M is the normalised marks obtained by the candidate in the paper mentioned on the GATE 2024 Score Card

M_q is the qualifying marks for general category candidates in the paper

M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of all the candidates who appeared for the test paper (i.e., including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to M_t

M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared for the test paper.

COMPUTATION OF NORMALISED MARKS

Computer Science and Information Technology (CS) and Civil Engineering (CE) were conducted in two sessions in GATE 2024. For such multisession papers, a suitable normalisation is applied to take into account any variation in the difficulty levels of the question papers across sessions. The normalisation is done based on the assumption that, in multisession GATE papers, the distribution of the abilities of the candidates is nearly the same across sessions. This assumption is reasonable because the number of candidates appearing for the test papers is large, the number of candidates allotted to the sessions are comparable, and the procedure for allocation of candidates to the sessions is random.

The normalised marks of the j^{th} candidate in the i^{th} session, denoted by \hat{M}_{ij} , are computed as

$$\hat{M}_{ij} = \frac{\bar{M}_t^g - M_q^g}{\bar{M}_{ti} - M_{iq}} (M_{ij} - M_{iq}) + M_q^g$$

where

M_{ij} is the actual marks obtained by the j^{th} candidate in the i^{th} session

\bar{M}_t^g is the average marks of the top 0.1% of the candidates considering all sessions

M_q^g is the sum of mean and standard deviation of marks of the candidates in the paper considering all sessions

\bar{M}_{ti} is the average marks of the top 0.1% of the candidates in the i^{th} session and

M_{iq} is the sum of the mean and standard deviation of marks in the i^{th} session.

Qualifying in GATE 2024 does not guarantee admission to a postgraduate program or scholarship/financial assistance. Admitting institutes may conduct additional tests or interviews for final selection of candidates.

Graduate Aptitude Test in Engineering (GATE) 2024 was organised by Indian Institute of Science, Bengaluru, on behalf of National Coordination Board (NCB) - GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

Instructions:

- Only those candidates who have taken the Common Admission Test (CAT 2023) are entitled to receive the score card. Keep a print-out of this score card for your information pertaining to CAT 2023. You will not receive the score card by email or by post.
- The Overall Scaled Score is the sum of the scaled scores of the candidate in the three sections.
- Percentile refers to the percentage of candidates who receive a scaled score less than or equal to the scaled score obtained by the candidate.
- IIMs and Non-IIM member institutions independently decide how to use CAT 2023 scores in line with their own selection process. The scores are to be used only for selecting the candidates to their respective Post Graduate/Doctoral (Fellow) Programme(s) in Management.
- Detection of instances of incorrect information and process violation by a candidate at any stage will lead to disqualification of the candidate. CAT scores of such candidates who are disqualified will become null and void. Such disqualified candidates will not be allowed to appear for CAT in future. If such instances go undetected during the current selection process but are detected in subsequent years, such disqualification and the associated penalties will take place with retrospective effect.
- All queries regarding post-CAT 2023 selection process must be directed to the respective IIMs. CAT Centre will not answer post-CAT queries.
- CAT 2023 score is valid only until 31st December 2024 and is subject to the candidate meeting the minimum eligibility marks in the qualifying examination. The score card will be available on www.iimcat.ac.in till 31st December 2024 to download.
- Webmail support cat2023@iiml.ac.in & cathelpdesk@iimcat.co.in will be available till 31st March 2024.

on behalf of NCB-GATE, for MoE

Normalized marks for Civil Engineering (CE) paper

** A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this score card.

General Information

The GATE 2023 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2023 scorecard

M_q is the qualifying marks for general category candidate in the paper

M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

S_q = 350, is the score assigned to M_q

S_t = 900, is the score assigned to M_t

In the GATE 2023 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2023 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2023 was organized by Indian Institute of Technology Kanpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

GRADUATE APTITUDE TEST IN ENGINEERING 2024

अभियांत्रिकी स्नातक अभिक्षमता परीक्षा २०२४

ORGANISING INSTITUTE: INDIAN INSTITUTE OF SCIENCE, BENGALURU

SCORE CARD

COMPUTATION OF NORMALISED MARKS

Computer Science and Information Technology (CS) and Civil Engineering (CE) were conducted in two sessions in GATE 2024. For such multisession papers, a suitable normalisation is applied to take into account any variation in the difficulty levels of the question papers across sessions. The normalisation is done based on the assumption that, in multisession GATE papers, the distribution of the abilities of the candidates is nearly the same across sessions. This assumption is reasonable because the number of candidates appearing for the test papers is large, the number of candidates allotted to the sessions are comparable, and the procedure for allocation of candidates to the sessions is random.

The normalised marks of the j^{th} candidate in the i^{th} session, denoted by \hat{M}_{ij} , are computed as

$$\hat{M}_{ij} = \frac{\bar{M}_t^g - M_q^g}{\bar{M}_{ti} - M_{iq}} (M_{ij} - M_{iq}) + M_q^g$$

where

M_{ij} is the actual marks obtained by the j^{th} candidate in the i^{th} session

\bar{M}_t^g is the average marks of the top 0.1% of the candidates considering all sessions

M_q^g is the sum of mean and standard deviation of marks of the candidates in the paper considering all sessions

\bar{M}_{ti} is the average marks of the top 0.1% of the candidates in the i^{th} session and

M_{iq} is the sum of the mean and standard deviation of marks in the i^{th} session.

Qualifying in GATE 2024 does not guarantee admission to a postgraduate program or scholarship/financial assistance. Admitting institutes may conduct additional tests or interviews for final selection of candidates.

Graduate Aptitude Test in Engineering (GATE) 2024 was organised by Indian Institute of Science, Bengaluru, on behalf of National Coordination Board (NCB) - GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

Name of Candidate	ANIL GUPTA
Parent's/Guardian's Name	SHIVCHARAN GUPTA
Registration Number	ES23S33019039
Date of Birth	25-Sep-1999
Examination Paper	Environmental Science and Engineering (ES)

* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this score card.

General Information

The GATE 2023 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2023 scorecard

M_q is the qualifying marks for general category candidate in the paper

M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

S_q = 350, is the score assigned to M_q

S_t = 900, is the score assigned to M_t

In the GATE 2023 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2023 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2023 was organized by Indian Institute of Technology Kanpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

CAT 2023

COMMON ADMISSION TEST (CAT) 2023 ADMIT CARD

		Shift	S1
Name	ABHINANDAN AGRAWAL		
Application Number	23021212	Please affix the same photograph as uploaded in the form	
Date of Birth	29-09-1999		
Category	General		
PwD	No		
Emergency Contact	9219427547		
Test Day Details			
Date and Day of Test	26th November 2023 (Sunday)		
Test Times and Session	08:30 AM - 10:30 AM (IST), Forenoon Session		
Reporting/ Entry time at Centre	07:00 AM (IST)		
Gate Closing Time of Centre	08:15 AM (IST)		
Test City	Varanasi		
Test Centre	iON Digital Zone iDZ Ayar Bazar Aprup Shiksha Sansthan, Ahirauli, Ayar Bazar, Shindhora Road In front of Asian Public School, Varanasi, Uttar Pradesh, India - 221210		
			Candidate's Signature in the presence of Invigilator

Instructions to the Candidate

- Print all the pages of this Admit Card on an A4 size paper using a laser printer and Carry the same on the day of Examination for verification. Admit Card is valid only if the candidate's photograph and signature images are legibly printed. Please affix the same photograph as uploaded while registering for CAT at the indicated place (besides the printed photograph). The candidate must produce the Admit Card for verification at the time of the test. This Admit Card is valid only for the test date and session time as specified in the 'Test Day Details' section.
- Candidate must carry "Any one of the original and valid Photo Identification Proof issued by the government" – PAN card/Driving License/Voter ID/ Passport/ Aadhaar Card (With photograph)/ E-Aadhaar/Ration Card/ Identification Affidavit along with the Admit Card. The Photo Identification Proof should not be damaged or smudged.
- Candidate must reach the centre as indicated against Reporting/ Entry time at centre. No candidate shall be permitted to enter after the Gate Closing Time.
- No candidate shall be permitted to leave the Test Centre before the end of the Test.
- Candidates are advised to locate their Test Centre and its accessibility at least a day before the test so that they can reach the Test Centre on time on the day of the test.
- A writing pad and pen will be provided to the candidates for rough work, which will have to be returned after the test. Candidates should clearly write their name and application number on the writing pad.
- Mobile phones, electronic gadgets, watches, calculators, stationery items, papers, wallets, goggles, etc. will NOT BE ALLOWED inside the Test centre. Candidates must NOT wear any jewellery or other items containing metal. There is no facility for safekeeping of candidates' personal belongings outside the Test Hall and the Test Conducting Authority is not responsible for its damage or loss if any.
- Shoes/footwear with thick soles and garments with large buttons are NOT permitted.
- Candidates attempting to appear for more than once will be disqualified from CAT 2023.
- Candidates need to make their own travel and stay arrangements for attending the test.
- The Admit Card is provisional, subject to the condition that the candidate has fulfilled the eligibility conditions like academic qualification, category, PwD status etc., as mentioned in his/her application, which is subject to verification in the consecutive stages of the selection process.
- Requests for change of the Test Centre will **NOT** be entertained.
- Parents/Guardians accompanying the candidate will not be allowed inside the test center.
- Violation of any of the above guidelines including impersonation or breaking of code of conduct for CAT 2023 will lead to cancellation of candidature and/or legal action.

Date of Birth	29/Sep/1999	Date of Test	26th Nov 2023

Section		Section		Section		Total	
Verbal Ability & Reading Comprehension		Data Interpretation & Logical Reasoning		Quantitative Ability			
Scaled Score	Percentile	Scaled Score	Percentile	Scaled Score	Percentile	Overall Scaled Score	Overall Percentile
8.48	51.94	17.40	93.39	20.44	97.47	46.33	91.12

Instructions:

- Only those candidates who have taken the Common Admission Test (CAT 2023) are entitled to receive the score card. Keep a print-out of this score card for your information pertaining to CAT 2023. You will not receive the score card by email or by post.
- The Overall Scaled Score is the sum of the scaled scores of the candidate in the three sections.
- Percentile refers to the percentage of candidates who receive a scaled score less than or equal to the scaled score obtained by the candidate.
- IIMs and Non-IIM member institutions independently decide how to use CAT 2023 scores in line with their own selection process. The scores are to be used only for selecting the candidates to their respective Post Graduate/Doctoral (Fellow) Programme(s) in Management.
- Detection of instances of incorrect information and process violation by a candidate at any stage will lead to disqualification of the candidate. CAT scores of such candidates who are disqualified will become null and void. Such disqualified candidates will not be allowed to appear for CAT in future. If such instances go undetected during the current selection process but are detected in subsequent years, such disqualification and the associated penalties will take place with retrospective effect.
- All queries regarding post-CAT 2023 selection process must be directed to the respective IIMs. CAT Centre will not answer post-CAT queries.
- CAT 2023 score is valid only until 31st December 2024 and is subject to the candidate meeting the minimum eligibility marks in the qualifying examination. The score card will be available on www.iimcat.ac.in till 31st December 2024 to download.
- Webmail support cat2023@iiml.ac.in & cathelpdesk@iimcat.co.in will be available till 31st March 2024.
