CONSULTANCY & RESEARCH INCENTIVE SCHEME OF POORNIMA (CRISP)

Applicable with effect from July 1, 2018

1. Preamble

In the light of changing economic scenario, government policies and priorities of Poornima, the institute considers sponsored research and industrial consultancy projects as an important means for extending benefit of scientific research work at the institute to the sponsoring agencies broadening the experience base of the Institute community and as a tool for contributing to the country's and economic growth. Therefore, as a matter of policy, the institute encourages its faculty members to undertake research and consultancy work as a measure of scientific/ technical collaboration with outside agencies. Appropriate research and consultancy projects, in addition to providing much needed service to the government and industry, also benefit the concerned faculty members and the institute in several ways. They enrich the professional experience and knowledge of faculty members and thus make them better educators. Research and consultancy projects provide first-hand knowledge of the current problems of industry and the emerging area which is very helpful in tuning the curriculum the national needs. The faculty members get an opportunity to apply their ideas for finding out the solutions to the problems in emerging areas. Furthermore, the consultancy work also provides incentives for their contribution to all categories of staff.

2. Categorization of Grants/ Projects

Category A: Government funded research projects – This type of research based project work that does not require existing institutional infrastructure but helps in creation of assets through government funded research projects and are based on the expertise of the consultant. The assignments under this category are of highly specialized nature and must be handled with utmost sincerity as they may have far reaching impact on academia as well as society. Thus, any compromise in the execution of such assignments may tarnish the image of the institution. Keeping this in view, it is mandatory to ensure that the concerned consultant possess proper academic qualifications and well established credentials in the area of the project.

Category B: Design, development & infrastructure based consultancy – This type of Consultancy will involve use of the institution's computational facilities / software / hardware, testing of sample/ component/ product against a standard and other technical, physical infrastructure by the client. The institution will undertake testing jobs provided testing facilities and expertise are available in the institution itself. The consultant must undertake any consultancy assignment under this category only after ensuring that the machine/ equipment used for testing is duly calibrated and provide accurate results against a reference / standard. It is understood that the testing equipment will be used only by the consultant(s) and not by the client.

Category C: Skill & knowledge based consultancy – This type of consultancy will NOT involve use of the institution's computational facilities / software / hardware but is based on the expertise of the consultant. Keeping this in view, it is mandatory to ensure that the concerned consultant possess proper academic qualifications and well established credentials in the area of consultancy.

3. Incentive Amount

Category	Incentive to the consultant / Principal investigator (i.e. the principal faculty)	Incentive to the supporting team members (faculty & staff)	Date of grant of incentive
A	8% of the total grant amount, but limited to a maximum of half of annual gross salary of consultant (to	2% of the total grant amount (On sole discretion of the consultant /	After the completion of project & obtaining NOC from grant

B	40% of the total project grant received (this also includes all types of taxes which are applied on complete project)	On sole discretion of the consultant / principal faculty	As & when grant is received
C	80% of the total project grant received (this also includes all types of taxes which are applied on complete project)	On sole discretion of the consultant / principal faculty	As & when grant is received

4. Important Points

- 4.1. **Individuals or Departments shall take up projects after obtaining NOC from the Director, Poornima Head of Institution.**
- 4.2. All funds in connection with above mentioned consultancy/ projects should be received in the name of the Institute only. The account will be maintained & controlled by the office of Director (Admin & Finance).
- 4.3. The time spent by a faculty/ consultant on such projects should not exceed one day per working week plus one day during weekends, thus a total of 52 man days during the calendar year.
- 4.4. Report(s) and data collected/ originated out of project will be the joint intellectual property of the sponsor, consultant & Poornima Group which can be used by the sponsor, consultant & institution for its own use only and cannot be disclosed to any other party without obtaining the NOC of sponsor, consultant & institution
- 4.5. The report of the project / consultancy will be kept by the consultant for a period of 03 years from the date of closure of the project and for routine testing from the date of issue of report.
- 4.6. If a prima-facie case of malpractice and/or misconduct is established by a fact finding committee against a staff member in connection with project(s), the Director (Admin & Finance), on the recommendation of Head of Institution may prohibit the concerned faculty / staff member to take part in any new project as consultant till such time that a final decision is taken by the appropriate authority in the matter. However, in such cases the concerned faculty/ staff member will be expected to complete his/her obligations in the on-going project(s) with which he/she is connected, in order that the on-going projects and obligations to the sponsor do not suffer.
- 4.7. All purchases under projects shall be made through the Purchase Manager, Poornima Group. In case of equipment which is to be carried outside, the same should be insured before they are taken out.
- 4.8. The faculty may engage student(s) of Poornima as student assistants for the project work
- 4.9. The most expeditious and convenient mode of travel should be used to minimize periods of absence from the Institute. Admissible DA or actual boarding & lodging expenses and expenses on local travel by taxi will be reimbursed against receipt.
