DETAILS OF ACTIVITY:

The Department of Computer Engineering, Poornima College of Engineering, Jaipur, organized a Session on “Human Values” 30 September 2023. Human values are the core values that make up our personality and define how we act in life. These values are very important as they make up who we are and are what guide us through life. The values that we hold determine who we want to be as well as how we live our lives and the decisions that we make on an everyday basis. Without these values, our lives would become chaotic and there would be no meaning behind any of the things that we do or say.

All humans have these values in some way or another, and it is up to us to choose which values we hold most dear. The 20th century philosopher Martha Nussbaum puts forth a list of ten innate human values: truth, beauty, justice, courage, temperance, wisdom, love, equality, modesty and hope. These are values that all humans should try to uphold as they go through their day to day lives.

EXPERT SESSION CONTENT:

Professionally accepted standards of personal and business behaviour, values and guiding principles. Codes of professional ethics are often established by professional organizations to help to guide members in performing their job functions according to sound and consistent ethical principles. Professional ethics may be understood as professionally acknowledged measures of individual and business conduct, values, and guiding principles. Professional ethics is nothing but a code of conduct applicable to different professions and is set up by the expert members of such profession or professional organizations. The underlying philosophy of having professional ethics is to make the persons performing in such jobs to follow the sound, uniform ethical conduct. Hippocratic Oath undertaken by medical students is one such example of professional ethics that is adhered by even today. Some of the important components of professional ethics that professional organizations necessarily include in their code of conduct are integrity, honesty, transparency, respectfulness towards the job, confidentiality, objectivity etc.

EXPECTED OUTCOMES:

These values lead to mutual fulfillment and happiness in all our relationships. Justice (Nyaya): Justice is the recognition of values (the definite feelings) in relationship, their fulfilment, the right evaluation of the fulfilment resulting in mutual happiness.
