## COLLEGE OF ENGINEERING

Promoted by Shanti Education Society, Affiliated to Rajasthan Technical University & Approved by AICTE

## Department of Electronics and Communication Engineering

### *IETE STUDENT FORUM*

Since 1953

Faculty Convener: **Dr. Garima Mathur**  
(ISTE-LM-46892)

Faculty Co-coordinator: **Dr. Payal Bansal**  
(ISTE-LM-321929)

**Poornima College of Engineering, Jaipur**  
ISI-6, RIICO Institutional Area, Sitapura, Jaipur, Rajasthan 302022, Rajasthan

  
**Dr. Mahesh Bunde**  
B.E., M.E., Ph.D.  
Director  
Poornima College of Engineering  
ISI-6, RIICO Institutional Area  
Sitapura, JAIPUR

# POORNIMA

## COLLEGE OF ENGINEERING

Promoted by Shanti Education Society, Affiliated to Rajasthan Technical University & Approved by AICTE

### Department of Electronics and Communication Engineering (“IETE Student Forum”)

#### IETE Student Forum Poornima Collegiate Club

The Institution of Electronics and Telecommunication Engineers (IETE) founded in 1953 is one of the leading Professional Society in India. With the great vision of founder and subsequent forefathers and stalwarts who were leading light of the Institution IETE, have been devoting and contributing for the advancement of Science and Technology in the fields of Electronics, Communication Engineering, Computer Science, Information Technology and other related subjects. The major focus of IETE is to provide engineering education i.e. Degree and Diploma level certifications to younger generation at affordable cost who cannot afford it through regular & private engineering institutions at exorbitant cost. IETE has got two streams of Student base. First wing is the students of alma-mater, IETE, viz, the pass outs of DIP IETE , AMIETE and ALCCS students . For them we have an Alumni Association formed in 2013 and the Second one is the Engineering students studying in Engineering Colleges and Polytechnics across the Country. This wing is the ISF (IETE Students Forum). More than 550 live ISFs are functioning in India today with a student membership of more than 60,000.

#### VISION & MISSION-IETE Student Forum

- Improving standard of Engineering Education
- Counselling the students in the emerging new opportunities
- Encouraging and motivating the outside Class room studies
- Workshops/ Projects/ Seminars
- Increasing the student base and Corporate membership of IETE

#### Establishment of Forum: - IETE Student forum started in 2012

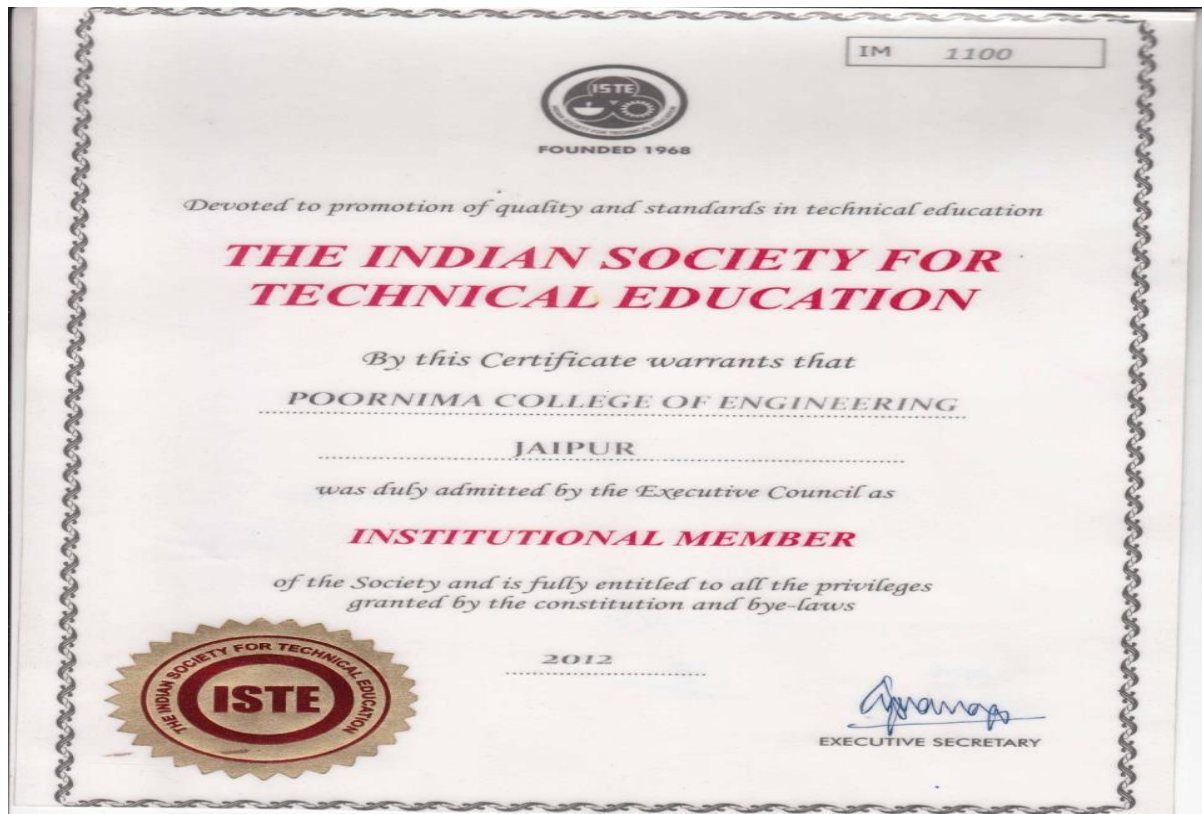

**Faculty Advisor:** Dr. Garima Mathur, Membership No. **ISTE-LM-46892**

#### IETE Student forum VISION & MISSION

- To advance mobility knowledge and solutions for the benefit of humanity.
- To enhance the knowledge base of members who are mobility practitioners within institute
- To develop report writing and presentation abilities of students
- To provide a forum for members to informally exchange views and ideas.
- To develop interaction of members with outside by organizing visits to institutes.

  
**Dr. Mahesh Bunde**  
B.E., M.E., Ph.D.  
Director  
Poornima College of Engineering  
ISI-0, FIICO Institutional Area  
Gulapura, JAIPUR

Department of Electronics and Communication Engineering, Poornima College of Engineering, Jaipur inaugurated **IETE Student forum** on March, 2013. **IETE Student forum** dedicated to the advancement of research Community in India. IETE devotes resources to projects and programs in engineering education, professional certification, and competitions. Dr. Garima Mathur was felicitated as faculty advisor of the **IETE Student forum**.

**IETE Student forum** is a forum which is running by students of Poornima College of Engineering. Students lead the students. It was setup by teachers but now it is self-sustained and driven by students.

*Dr. Mahesh Bunde*  
**Dr. Mahesh Bunde**  
 Director  
 Poornima College of Engineering  
 ISI-0, FIICO Institutional Area  
 Ghatapada, JAIPUR

**IETE Student forum** Creates conducts various workshops, training & Events in the field of electronics. Every year students participate in various kinds of events like paper publication, poster presentation and workshops created by many more colleges. The leaders, mentors or core team go for the competition with great preparations and come back with the achievements, experience, and dedication. There's a lot of knowledge to gain and enjoyment with the learning. In forum, presentation classes are conducted for the students by the students. We got achievements and rewards in many of the competitions. **IETE Student forum** is a self-sustained club or it is a group of students including all four years. Every year there is an increment in the members of **IETE Student forum**.

  
**Dr. Mahesh Bunde**  
B.E., M.E., Ph.D.  
Director  
Poornima College of Engineering

Gulapura, JAIPUR

# **ZIRCON CLUB**

Robotics is the branch of technology that deals with the design, construction, operation, structural disposition, manufacture, and application of robots.

The concept and creation of autonomously operating machines date back a long time, but credible research into the functionality and potential uses of robots did not grow substantially until the 20th century. And today, robotics is a rapidly growing field, as we continue to research, design, and build new robots that serve various practical purposes including domestic, commercial, and military.

The Zircon Club strives to stimulate interest in robotics among the students of the institute. Besides making a serious endeavour to spread knowledge of Robotics and its diverse applications. It is this exemplary virtue that has bound the club and helped it to grow to its present potential.

We firmly believe in working in a planned, organized, and disciplined manner that helps us in risk-free management. The proceedings of the clubs are all pre-planned and run smoothly according to the constitution. Well-defined goals, an organized and disciplined work structure, and motivated members are the features of the club, to mention a few, that have helped the club to grow to the level where we see it now.

The club today is an active platform for students to display and develop their practical machine-building skills and knowledge.

Zircon club has been the embodiment of innovation at PCE Jaipur. Being formed in the year 2008 by Rajat Agarwal Sir, our club boasts a glorious legacy. Our members range from seasoned coders to brilliant designers to hardware scientists. Our members have also represented our college at the Smart India hackathon. We have been constantly working to enhance the student's technical skills and make them aware of the fascinating world of automation, robotics, and electronics that surrounds us. The arms of the club stretch beyond the boundaries of college too. The members of this club spectacle in the tech fests organized in IITs and NITs. The Club offers indispensable guidance, workshops, and tutorials along with tools, equipment, components, and workspace.

Zircon club has the responsibility to conduct the NSP (Non-syllabus project) for the first year and provide guidance for it, NSP (Non-Syllabus Project) provides the opportunity for all first-year students to explore their technical and hardware skills apart from their academic subjects. NSP holds great weightage in their DECA and extra-curricular marks. It also helps in increasing the horizons of interest of students.

Also, the Zircon Club organize annual Techfest of college which is Aadhar, AADHAR is an initiative taken by the Zircon Club that intends to flourish the overall skills of an individual. Every talent needs a platform and to provide such platform the club conducts AADHAR every year. It was started back in 2007 by students of Poornima to develop harmony and teamwork among students to showcase their talent. It's a great workspace and a comprehensive inventory. It's a technical fest of Poornima College of Engineering, which provides a platform where the students of the first year get a chance to implement their theoretical knowledge in the practical arenas, not only the first year the students from all 4 years participate in the competitions. The zeal and passion of the Zircon Club make this fest a gifted asset for the students of Poornima. In this fest, the students first participate, showcase their Non-Syllabus Project (NSP), and take part in the Competition organized by our club. This technical fest is a great asset for the students of Poornima.

  
**Dr. Mahesh Bunde**  
B.E., M.E., Ph.D.  
Director  
Poornima College of Engineering  
ISI-6, FILCO Institutional Area  
Ghatapada, JAIPUR

Tech-fest and consists of competitions and an exhibition. The average participation rate in this fest is 800-900 students.

### ❖ Vision & Mission of Zircon Club

Robotics today is a field where a lot is happening. Not many things can be comprehended by a human brain. It was the aim of making robotics an everyday phenomenon. 14 years ago, a day saw the onset of Zircon Club PCE. Over the years it sure has made its presence felt. With a vision of involving as many students as it can, in various activities related to Robot development, we continue to grow. We at Zircon club involve ourselves in activities ranging from lectures to workshops to competitions to even technical night outs. Various competitions are conducted over the course of two semesters followed by summer projects by few enthusiasts. We look forward to developing Robosapiens who are the 'Future'.

- To help in establishing a conducive environment, enabling our students to acquire knowledge and technical skills.
- To provide knowledge-based technical services to meet the diverse needs of society and industry.
- To develop team spirit to equip young professionals with dedication and commitment to face global competition challenges.

## Events

### **ROBO RACE:**

Autonomous or wired racing robots are the focus of the competition. The goal of the competition is to increase robot driving skills by creating more realistic race circumstances. There won't be any stop signs or traffic lights, and all vehicles must come to a safe stop after each race.

### **ROBO SOCCER:**

The basic purpose of this game is to direct your robots to score as many goals as you can. A specialized autonomous robot is a soccer robot. On the other hand, bots are capable of intense competition with wired and wireless bots. Each team must score and defend the goal on the other team's side. Each team could have a maximum of four participants.

### **ROBO WAR:**

The primary tactic used by either side, whether it be defending or attacking, is considered while creating the bots. There is a 5-person maximum per squad. Five minutes will be allotted for each match. Only timeouts lasting 30 seconds and a maximum of twice a game allow teams to shift their bots. It is not permitted to strike engines or cables, just certain body parts.

### **EXHIBITION:**

Exhibitions consist of all the robots and bots which students made from scratch under the name of AADHAR events. All the machines made during and for AADHAR is presented in this exhibition for the general, guest, and other participating public. Schools and colleges can also come and exhibit their project as well.

- **CIRCUITRY: -**

The circuitry is the science of designing electronic or electric circuits, or it is the detailed layout of an electric circuit. The most crucial component of electronics is circuitry. Circuitry enables us to create and test the existing circuits and experiment with various configurations to obtain a unique outcome each time.

- **MACHINE-O-MANIA: -**

**Dr. Mahesh Bunde**  
B.E., M.E., Ph.D.  
Director  
Peernima College of Engineering  
ISI-0, FULCO Institutional Area  
Gulapura, JAIPUR

A hand on the opportunity to explore and expand your imagination. design the machine you desire. Your creativity, originality, and innovation, as well as the persistence of your model's efficiency, are all put to the test in this competition. Bring your ideas and thoughts to this robot to make something you can only imagine real.

**COSMO CLENCH:**

The participating teams must build a manually controlled gripper bot (wired or wireless) that can grip objects and put them in target zones while overcoming the hurdles in the path with minimum time.

**SPUD GUN:**

A toy gun shoots a potato plug by forcing the air in the barrel to condense, sending the potato projectile flying out quickly. A little toy gun called a "spud gun" is used to shoot a potato. To fire, one uses the hollow point of the gun to pierce a potato's surface and pry out a tiny pellet that fits in the muzzle. When the grip is squeezed, a tiny amount of internal air pressure builds up and the toy launches the missile. The devices are often low-powered and short-range.

**CODING COMPETITION:**

Coding competition enables you to locate the best solution as quickly as feasible. It assists in making these trade-offs, and in this situation, where you must decrease the time and complexity of your code and discover the best solution, this skill is quite important.

**BOAT RUSH:**

In this event, you are required to prepare a boat that is supposed to overcome all the hurdles in the water and reach a particular spot in each time. The maximum number of participants should not be more than 2 per team.
