A Report ON EARTH DAY

NAME OF ACTIVITY: EARTH DAY

• **DATE & DURATION:** 22 April, 2019 & 8:00 am -3:00 pm

TYPE OF ACTIVITY: Extra- Curriculum Activity

• ORGANIZED BY: Poornima College of Engineering, Jaipur

• FLYER:

• DETAILS OF ACTIVITY:

Every year on April 22, Earth Day marks the anniversary of the birth of the modern environmental movement in 1970.

B.E., M.E., Ph.D.
Director
Poornima College of Engineering
ISI-6, FIICO Institutional Area

Earth helps in sustaining life on Earth. In our entire solar system, Earth is the only planet that has the right amenities (air and water) to support life on it. Through ages, Earth has provided us, i.e. mankind, with every kind of resource available to make our life as smooth as possible. Be it fresh drinking water, enough oxygen, proper landform, or proper climate to harbour life, Earth has given us everything we need.

• OBJECTIVE:

Teaching about pollution is an essential part of Earth Day because it helps students understand the consequences of not protecting the Earth. It can be much easier to prevent pollution than to remedy it later. Students can experience the effects of pollution on a small scale in the classroom

ABOUT THE EARTHDAY

Earth Day is celebrated annually on April 22 to spread awareness about environmental protection and acknowledge the global climate crisis. Earth Day was founded in 1970 by a person in America. That name was Senator Gaylord Nelson.

With every passing day, the climate is getting worse and it is our duty to save and conserve mother nature. This year the theme for Earth Day is "Invest in Our Planet." The theme focuses on acting in a bold way, innovating in a broad way, and implementing in an equitable manner. This day is celebrated to make people aware of how they can be an advantage in saving the Earth from pollution, global warming, and water scarcity.

• Execution:

Our department celebrated Earth Day through a series of activities 22nd April. The assembly held a half an hour session on steps that every student can take on an individual level. It included basic habits like switching off electrical appliances when not in use. Many creative actions like reuse of old clothes, recycling of paper etc. The best part of the day was the Eco-competition where the group of students from each class were to bring anything made out of reused materials. Students made amazing and creative products like wall hangings, cards, pen stands, bags, paper box and even beautiful dresses. The day was marked not only by awareness but also enthusiasm on the part of the students.

• OUTCOME :

Protecting Mother Earth should be our foremost duty. If we don't protect our planet, then after some years, all the resources that we get from Earth will be exhausted. So while we still have time, we must take proper and effective measures to make sure that our future generations can also use these resources. Let's have a look at all the actions we can take to protect our planet.

- The first way by which we can preserve our resources is by utilising less land for cultivation. Large areas of forest are cleared every year to make space for cultivation.
 We should try to grow crops that require less area, and this can be done through the crop rotation technique.
- Instead of using non-renewable energies, We should focus on renewable resources like solar energy, wind energy, hydropower etc.
- We should plant more trees and maintain a proper balance between human beings and nature

A REPORT ON REPUBLIC DAY

NAME OF ACTIVITY: Republic day Activity

• **DATE & DURATION:** 26 Jan, 2019 & 9:00 AM to 1:00 PM

• **TYPE OF ACTIVITY:** Extra- Curriculum Activity

• **ORGANIZED BY:** Poornima College of Engineering, Jaipur

LEARNING OUTCOMES:

Everyone was feeling very patriotic and happy because it was a matter of great pride for all of us. After all, on this day the constitution of India came into force and our country became Republic.

DETAILS OF ACTIVITY:

India marks January 26 as its Republic Day every year. In 2019, the country is celebrating its 70th Republic Day. While India gained independence from the British Raj in 1947, it wasn't until January 26, 1950, that the Indian Constitution came into effect, and India became a sovereign state, declaring it a republic. Dr. BR Ambedkar headed the Drafting Committee of the Constitution. Additionally, Constitution Day is celebrated in India on November 26 every year, as on November 26, 1949, the Constituent Assembly of India adopted the Constitution of India.

The day was celebrated in Arbuda, PIET with great eclat. Everyone was feeling very patriotic and happy because it was a matter of great pride for all of us. After all, on this day the constitution of India came into force and our country became a republic.

On this day, The flag was hoisted in the campus. The main attraction of Republic Day celebrations is singing a patriotic song, speech on freedom fighters, and dance on republic day theme by students as well as faculty members. Some students were some very inspiring national songs sung in chorus. These were followed by stirring speeches by the students, teachers, and some prominent citizens. In the end, the program was concluded by distributing sweets and snacks to all the students.

A REPORT ON WORLD ENVIRONMENT DAY

NAME OF ACTIVITY: WORLD ENVIRONMENT DAY

• **DATE & DURATION**: 5 June, 2018

• **TYPE OF ACTIVITY:** Extra- Curriculum Activity

• **ORGANIZED BY:** Department of Civil Engineering, PCE

• OBJECTIVE:

- The aim behind organizing this program was to give awareness to people about keeping the environment clean and safe from pollution.
- For this purpose, plant more trees to purify the air and make the earth green.
- The sports department gave a sapling to each student and asked them to plant it around the campus.

• DETAILS OF ACTIVITY:

The first-ever Environment Day was held in 1973. Environment Day acts as a platform that helps create awareness about various issues that have adverse effects on the environment, like global warming, overpopulation, pollution, and crime against wildlife.

ABOUT THE ENVIRONMENT DAY

Environment day is celebrated worldwide on 5th June to create awareness among people about protecting the environment. The first-ever Environment Day was held in 1973. Environment Day acts as a platform that helps create awareness about various issues that have adverse effects on the environment, like global warming, overpopulation, pollution, and crime against wildlife.

The environment plays an integral role in maintaining the balance of the ecosystem we live in. Most people don't understand the importance of the environment and end up damaging it with their various activities. If we continue to degrade the environment, in the long run, the adverse effects will affect human beings too. So, to protect the environment, one should focus on sustainable development. In this way, the demands of human beings will be met without overexploiting the natural resources of the environment.

• EXECUTION:

Commemorating the day, the civil engineering department of Poornima college of engineering decided to conduct a small celebration with the students. The function was organized by . Mohammed Tarique with faculty coordinators .The event started with the Balwan Sheshma who delivered an excellent speech for the younger generation of Engineers. He pointed out the importance of environment day and how we can save our nature and earth.

He also added that we should also motivate others to keep their environment clean free of pollution so that we can live a healthy life. It was the pleasurable activity we enjoyed most and promised with our principal to plant more trees in our surroundings.

Students of Civil Department started planting and the teachers guided them in this regard. Some students cleaned the campus. The gardener surveyed the entire campus and made sure that planting is done appropriately. After this, the students were directed to reach the auditorium where the principal gave a speech in which he encouraged students to participate in these activities.

Every year, a theme is picked out for World Environment Day that encourages people to participate in the celebration and also motivates them to follow the theme. This year's theme is, 'Only one Earth' that is living sustainably in harmony with nature.

• OUTCOME:

The Environment is one of the most important tools for our survival on planet Earth. The Environment nurtures us and helps us survive. We cannot imagine life without air, water and soil. The biotic components like plants and animals are also important survival tools. Plants help purify the air around us. We get food from plants and animals.

The concept of celebrating World Environment Day was first conceptualized in 1972's United Nations Conference on Human Environment that was held in Stockholm. This became the first big conference where matters of the environment were given huge importance. The United Nations Environment Programme was also created at this conference.

WORLD WATER DAY-2018 "NATURE FOR WATER"

Organised by

DEPARTMENT OF CIVIL ENGINEERING

Technical Seminar

Keynote Speakers:

- 1. Dr. Nitin Goyal, Associate Professor, Manipal University, Jaipur
- 2. Er. Anil Sharma, Executive Engineer, Quality and Maintenance, Bisalpur Project, PHED

DETAILS OF ACTIVITY:

World Water Day is an annual United Nations (UN) observance day held on 22 March that highlights the importance of fresh water. The day is used to advocate for the sustainable management of freshwater resources. The theme of each day focuses on topics relevant to clean water, sanitation and hygiene (WASH), which is in line with the targets of Sustainable Development Goal. Theme of world water day is "Nature of Water" for this year. This event is organized by Department of Civil Engineering, Poornima College of Engineering, Jaipur.

• ABOUT THE SEMINAR:-

The seminar was organized on "World Water Day". The theme of the seminar is "Nature for Water" given by UNESCO. The main objective of the seminar was to create awareness and tackle issue related to water and sanitation and to find the solution for water conservation and restoration. The first keynote speech was delivered by Dr. Nitin Goyal, Associate Professor, Manipal University. He gave information about amount of rainfall in India and the way for water. He also discussed conservation of water, challenges for water and motivated the students for startup in Civil Engineering field like economic water filters etc. The second keynote speech was delivered by Mr. Anil Sharma, Executive Engineer, Quality and Maintenance, Bisalpur Project, PHED. He gave information about the water treatment plant project at Bisalpur and also about supply system of Jaipur City with stadia automation system. He also shared with students about the new technology for supply and monitoring of water to reduce losses. He has given examples of SINGAPORE &

DETAILS OF ACTIVITY:

Department of Electronics & Communication Engineering, Poornima College of Engineering, Jaipur, organized a Webinar on "Engineers turn dreams into reality", on Friday, Sep 15, 2017, at 12:00 PM. Mr. Durgesh shares so many stories with the students with a will to encourage the students to fix some goal in life. He started his session by thanking all the participants and by sharing his one of the favorite memory from college. He told us about the short term goals and long term goals. On this day roangoli completion was organized among students to inculcate the feel of team work.

♦ FEEDBACK / ATTAINMENTS:

Overall, the whole event was entertaining and full of thrill. Colors create excitement in life. It brings happiness and makes everything beautiful in the world. So, this kind of competitions should be organized more to promote Rangoli – the traditional culture of India.
