The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing first time donors at the camp our volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

A REPORT ON SELF DEFENCE TRAINING

- **NAME OF ACTIVITY:** Self Defence Training
- **DATE & DURATION**: 25 July, 2019(10:00-1.00P.M.)
- **ORGANIZED BY:** Wise Club
- **TYPE OF ACTIVITY:** Self-defence training
- **OBJECTIVE OF THE EVENT**: -

The event was to make the girls self-defendable and strong as well as. With the help of this event we were trying to inspire the girls for their security and to aware them for their self-defence. Every day, either on social media or on Television, you are hearing about women being victimized. There are so many stories of women that are available and you can hear about sexual violence or a random attack by strangers as well as being abused in some way. The world is changing and becoming more unpredictable particularly for women. As such, self-defence training is one of the most needed and must for every woman's to-do list. In the crime world, self-defence training is suggested, so that the women can resist any kind of sexual assault as well as random attacks. Still, now, women are not able to get equal rights in society. They are restricted to do their responsibilities. People should come out from these restrictions and limitations and motivate them by presenting gifts for women. The women are failed to protect themselves when they are facing any kind of sexual violence and random attack. The main reason for the failure is fear.

Discussed tips for self-defence –

The women should stay fit enough to run fast. The women should check when walking on the empty road to avoid grouping and chain-snatching from behind. It is recommended to keep your purse front and walk on the roads by paying full attention around the road. The woman should avoid high-heeled footwear when they are walking a long distance in unknown places. Say out 'STOP' in a loud and aggressive voice, when they need help from other people.

The event was organized in online mode on 2019 we were with our club coordinators and members. It was a good experience for us to do this type of wonderful event.
