## COLLEGE OF ENGINEERING

Promoted by Shanti Education Society, Affiliated to Rajasthan Technical University & Approved by AICTE

### A REPORT ON ALUMNI SESSION

**TITLE AND DURATION:** Alumni Interaction on “Objects and Human Faces detection uses Machine Learning” on September 11, 2021.

**SPONSORS & SUPPORTERS :**( If Applicable)

**ORGANIZER(S):** Poornima College of Engineering, Jaipur.

### **EXPECTED OUTCOMES:**

- Student will be able to know the importance of the Machine Learning process and analysis.
- Student will be able to get job opportunities in work experience on Java, MySQL, Spring, XML, JSON and Hibernate
- Student will be able to know the information for creating small project for becoming industry ready person.

## BRIEF BIODATA OF RESOURCE PERSON:

The session expert is Ms. Preksha Singh, Senior Software Engineer in Evolphin Software, US based organization Guru Gram. She is 2016 pass out alumni from Department of Information Technology, Poornima College of Engineering. Her working domain is java and AI development projects. She has 5+ yr of experience as a Software Engineer. She has worked on Java, MySQL, and spring, XML, JSON and Hibernate. She is also ex-employee of TCS. She has good command in Software Development life Cycle & Data Structure and algorithm. She has exposure in problem solving and end-to-end product and feature development. She has experience in Git, IntelliJ, Jenkins, and You Track. She handled different technical aspects like reviewing software requirements, specification, gap analysis, quality & taking appropriate actions and taking care of the complete cycle.

## **ABSTRACT OF THE SESSION:**

Poornima College of Engineering hosted a webinar on September 11, 2021 from 1100 to 1200 hours on “Objects and Human Faces detection using Machine Learning”. The interaction session took place with the help of webinar on Microsoft team on Saturday, September 11, 2021. Total 105 students attended this session. The coordinator and compare Mr. Manish Dubey opened the webinar by giving introduction of the guest Ms. Preksha Singh. Ms Preksha is one of the Star Alumni of Poornima Family. She has more than five years of experience and is presently working as a Senior Software Engineering in a leading product based MNC based in Guru Gram. She is well versed in skills like Leadership, Problem solving skills, project management, technical skills and she is very creative too. She is well Acquainted with Software Development life Cycle, Data Structure and algorithm and Multi-threading. She is also having Extensive work experience on Java, MySQL, Spring, XML, JSON and Hibernate. In this long of her experience she has worked on multiple domain projects and currently working on Artificial Intelligence based projects. Her List of achievements is very long but here I will mention few best, she was awarded as the Best Employee of the Month in the current organization, she is a Module Leader and leading a team, she was awarded as Miss Fresher of Poornima College of Engineering.

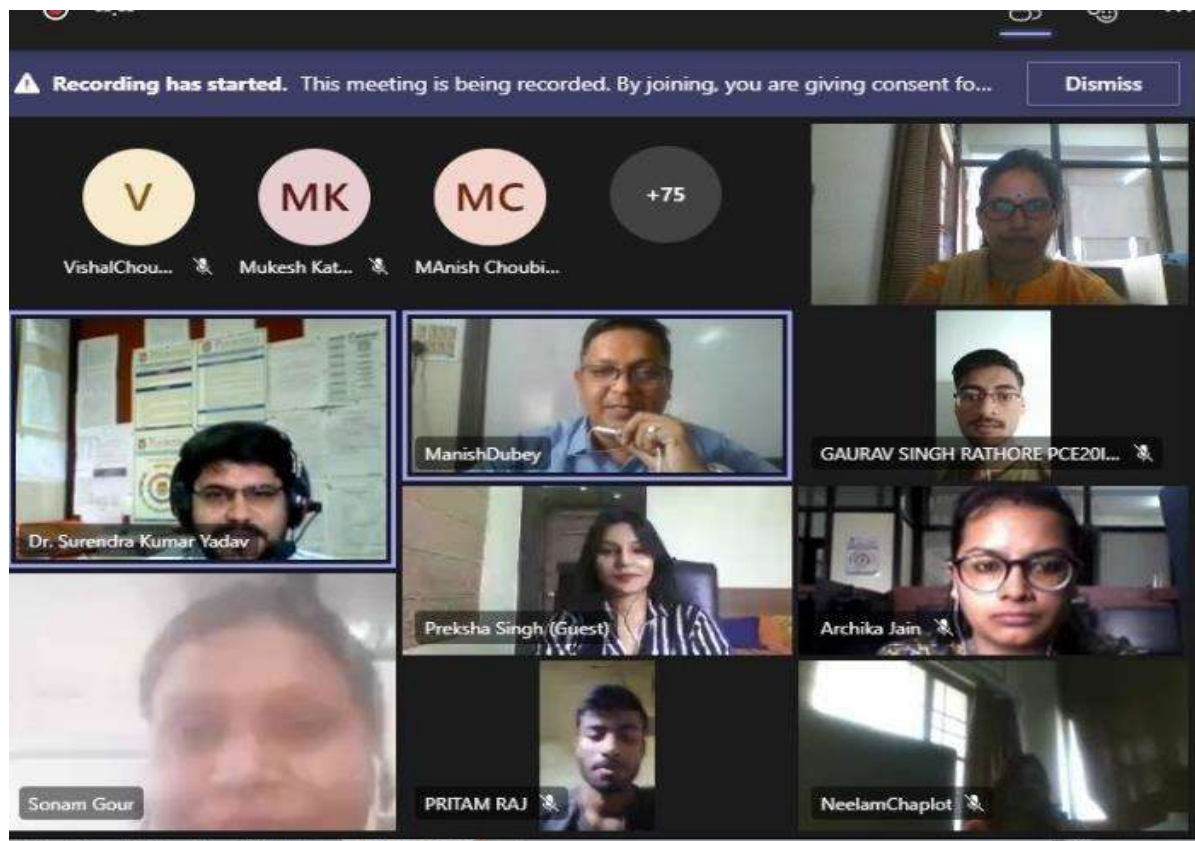

**GLIMPSES:** After the introductory speech of Ms. Preksha; Dr. Surender Kr. Yadav, Head of Department Computer Engineering felicitated Ms. Preksha by giving the virtual momentous. He welcomed the speaker and presented wonderful thought on webinar topic. After felicitation ceremony of Ms. Preksha, she started address to the current students and recalled his college day’s life and posts that. She discussed the use of Machine Learning and Artificial Intelligence for detecting the Objects and Human faces. Students were curious to know about the Image Processing techniques used for the image recognitions and object identifications. Ms. Preksha also discussed about the scope of various technologies with their pros and cons. She further added that college has contributed a lot in his success today. She discussed two or three example of the coding technique for recognizing the face with and without spaces.

She suggested making the product as part of their academic project rather than merely making a project. First gathered all the information related to the project not chooses the small domain for gaining the result. A product making will not only boost your fundamentals but makes you industry ready also. She also stressed to learn beyond the curriculum technologies and spend extra hour on this. Ultimately he concluded all the skills are good to survive but attitude is the thing which ultimately decides your future. At last student asked the query to the speaker. They also discussed that how to make a small project related to the machine learning. At last Ms. Sonam Gour Assistant Professor CSE gave vote of thanks to speaker and all the attendees.

**ASSESSMENT/ATTAINMENTS:** Not Required

**SWOT ANALYSIS:**

- Strength of the activity is that student should able to know the of Image processing and jobs demand in this field.
- Weakness of the event is that some students are from 2<sup>nd</sup> year, they do not have detail knowledge of image processing.
- The opportunity of the event is that student should able to identify or create small project related to machine learning.
