It also explains the importance of communication in growth of work life. The session explains the failure and life skills learning to deal with failure during switching between companies.

## **GLIMPSES:**

Mr. Nitin Pamnani started with how to adjust in different stages of life. He advised how to manage work load to manage time and stress. He also mentioned the importance of communication in growth of work life. He took himself as an example and explains how he dealt with failure during switching between companies. He took example of when he was trying to get job in Microsoft and where he made mistake and also share his experience with students related to preparation for technical giants. He gave suggestions to students on how to make their technical knowledge sound, what are the latest skills on demand and some online options to enhance them to the current scenario of global requirements. Alumni Mr.Nitin Pamnani stressed on the importance of extracurricular activities and their effect on life. How these small activities can help to shape the living in some new sense. Some students asked queries about how to manage between academic load and extracurricular activities; he answered their all with quiet patient and motivating manner. Alumni Mr. Nitin Pamnani, Full stack Engineer, Coterie Systems deliberated the one hour session interactively in presence of faculty members and students of second year of Computer Engineering Department.

Mr. Nitin Pamnani guided the students to tackle the life hacks so well that the session of one hour got extended to 30 minutes but students were not leaving him even after that. We are very proud and thankful to him.

Our Alumni also suggested some books to the students, which he thought to be very useful in their life. The suggested books are mentioned below.

1. Atomic Habits - by James clear
2. Psychology Of Money - by Morgan Housel
3. Deep Work - by Professor Cal Newport
4. So good they can't ignore you - by Professor Cal Newport

## **ASSESSMENT/ATTAINMENTS:**

Not Required

## **SWOT ANALYSIS:**

- Strength of the activity is that student should able to live stress free and able enough to manage load.
- Weakness of the event is that it is in online mode, so it becomes less interactive in the online mode.
- The opportunity of the event is that student should able to enhance the knowledge query related to Microsoft requirement drive.
