One Day Workshop on

# BASICS OF COST ESTIMATION AND COST ANALYSIS OF BUILDING

February 09, 2022

In Association with

PNC, Poornima College of Engineering

Indian Society for  
Technical Education

The Institution  
of Engineers

Organized by

Department of Civil Engineering

**POORNIMA**  
COLLEGE OF ENGINEERING

Affiliated to RTU, Kota • Approved by AICTE & UGC under 2(f) • Accredited by NBA

## ABOUT INSTITUTE

Poornima College of Engineering (PCE), established as a brand of technical education in the year 2000, has its own glorious legacy of leading the young engineers to the mammoth sky of success. Its accomplishments forecast its journey through the hardships and its triumph over them one after another. PCE left no stone unturned since its establishment in turning the glorious vision into unbelievable reality providing the platform for knowledge and research and their practical implementations in different engineering professional prospects. Glorious glimpses of PCE:

- Highly recognized and renowned affiliated technical institution all over Rajasthan with built up area more than 3.5 lacs square feet
- Affiliated to RTU, Kota & approved by AICTE, New Delhi
- The most preferred NBA Accredited Engineering College with running of six specializations of Engineering at UG Level (CSE, ECE, EE, ME, IT, CIV) and two at PG level (CS & VLSI)
- The only institution permitted by RTU to admit FNPIO/Gulf students & designated as centre of excellence by IBM

## ABOUT DEPARTMENT

The Civil Engineering Department of PCE came into existence in the year 2011 with an alignment of the department's evolution with key events and technological advances for the betterment of the society and nation. At present, it has the intake of 60 students providing all the amenities of infrastructure related to knowledge, research, experiments and training of multiple professions. Poornima College of Engineering believes that Civil Engineering is an evergreen branch in the engineering profession. Therefore, the Department of Civil Engineering has renowned scholars as the faculty members for sharing the knowledge. It has been taking initiatives for the versatile enhancement of the students through the technical, cultural and sports fests since its inception.

## ABOUT WORKSHOP

This workshop is a significant pedagogical tool to expand student learning experiences in practice environment.

The aim of the workshop is to connect students with practical importance of Estimating and costing. They can learn to create accurate construction cost estimates and also improve practical skills of students required in field. The Workshop will be organized to develop a clear understanding of Bar bending Schedule, rate analysis and control the expenditure during the execution of work.

## PRINCIPAL

Dr. Mahesh M. Bundale

Principal & Director, Poornima College of Engineering

## GENERAL CHAIR

Mr. Pankaj Dhemia

Vice-Principal, Poornima College of Engineering

## PROGRAM CHAIR

Dr. Pran Nath Dadhich

(Professor & Head, Department of Civil Engineering, PCE)

## COORDINATOR

Dr. Pooja Gupta

(Professor, Civil Engineering, PCE)

### Session 3:

Estimation of components of a residential building

**Expert:** Mr. Divya Vishnoi, Assistant Professor in the Department of Civil Engineering Poornima College of Engineering, Jaipur. He had done graduation from Rajasthan Technical university in year 2012 and later acquired his M. Tech in Structural Engineering in 2019. Currently He is pursuing Ph. D. from Poornima University. He had credited more than 15 research papers in reputed international and national journals and conferences. His area of

interest is Earthquake Disaster management and Structural design. He has 8 years teaching experience and also has experience in the planning and designing field.

**SITE CONDITIONS AFFECTING THE OVERALL COST**

1. Construction techniques, type of machinery, and formwork.
2. Quality of labour and labour output varies in different localities.
3. Weather conditions greatly affect the output and, hence, the overall cost.
4. Ground conditions vary and change the method of construction.
5. Surroundings; Open ground or congested areas.
6. Availability of resources, machinery.
7. Accessibility to the site.
