A REPORT ON NATIONAL WORKSHOP

TITLE AND DURATION: “One day workshop on Prototype with “3D Printing” by Mr. Ashwani Kapoor, May 18, 2021

SPONSORS & SUPPORTERS: Poornima Innovation and Incubation Cell, PCE, Jaipur. L3D Creations.

ORGANIZERS: Dept. of Mechanical Engineering, PCE, Jaipur.

FLYER OR POSTER:

ABOUT THE WORKSHOP

The next industrial revolution is all about personal fabrication, and it's happening now. 3D printing is poised to unlock the potential in every person to create, innovate and fabricate. It's already transforming manufacturing; soon it will change the world. This one day intensive workshop will broadly cover 3D printing and Additive Manufacturing (AM) which have been maturing significantly over last decade and have now been identified by all major Defense, Power Generation, Aerospace, Agriculture and Automobile Agencies as key enabling technologies. Hardware and components can be produced directly from the CAD model with minimal tooling and reduced delivery times. Participants will be benefited with basic to advanced level development of AM technologies from the world renowned expert in the area. This workshop is organized in three modules that were be taken together. The topics in module A, B, C

Poornima College of Engineering-Activity Report

the participants to design for 3D Printing and AM emphasized. The topics in the module included overview of 3D Printing and AM, preparation of CAD models, Generation of STL files, and calculation of slice profiles, support structure generation and build setup preparation.

In Module B, 3D Printing and AM Processes was covered. The topics in the Module include vat photo polymerization, extrusion based, powder bed fusion, material jetting, binder jetting, sheet lamination and directed energy deposition AM processes.

In Module C, 3D Printing and AM Applications was be covered. The topics in the Module include prototyping and industrial applications, tooling, automotive, aerospace, medical and dental, toys and gaming, business opportunities and future directions of 3D Printing and AM.

ABOUT THE SPEAKER

Mr. Ashwani Kapoor was done his B.E. in Mechanical Engineering and M.Tech. from Production Engineering and Technology. He has 13 years of Teaching, Research and Consulting experience. He also right books and he published so many research papers in National and international journals. He also has vast experience in project handling. He served various roles in his career like Head of the Department, Coordinate of various Workshop and FDP. He runs various club as a convener, right now, he is working as convener of Poornima Innovation and incubation cell (PIIC) for the last 2 years. He has expertise in 3D printing, IoT, Industry 4.0, CNC, Optimization Techniques, and Word Press etc.

A REPORT ON NATIONAL WORKSHOP

TITLE AND DURATION: “One day workshop on Metal & Polymer 3D Printer: An Introduction”
October 04, 2020

SPONSORS & SUPPORTERS: Poornima Innovation and Incubation Cell, PCE, Jaipur & L3D Creations.

ORGANIZERS: Dept. of Mechanical Engineering, PCE, Jaipur.

ABOUT THE WORKSHOP

Department of Electronics & Communication Engineering and Poornima Innovation and Incubation Cell, Poornima College of Engineering, Jaipur, organized a one day National workshop on "Metal & Polymer 3D Printer: An Introduction" on oct 4, 2020 at 12.30 PM. The session was delivered by Mr. Ashish Varshney, who is running a 3D Printer Manufacturing Company in Jaipur and successfully Install 10+ 3D printers in PAN India. The main objective of this webinar was to deliever some facts about 3D printing, its types and Technologies. Sesion started with the welcome address by Dr. Mahesh Bundeale, Director, PCE, Jaipur. Mr. Pankaj Dhemla, Vice Principal, PCE, Jaipur gave brief description about the webinar. Speaker took an interactive session with participants. He discussed about how we can do 3D printing and uses of 3D printing. He also explained the seven most common types in 3D printer technologies All printing technologies build parts in discrete slices called layers. Session was so informative and nicely presented. After this wonderful session a query session was conducted to resolve the doubts of participants. At last vote of thanks was delivered by Dr. Garima Mathur, HOD, ECE.

128 participants attended this webinar. This webinar was a good opportunity of effective learning for all the faculty members & Students.

ABOUT THE SPEAKER

Mr. Ashish Varshney, has done Masters of Science in Electrical Energetics System Engineering from Vilnius Gediminas Technical University and Munich University, Germany, Europe. Specializes In handling service operation processes for a dealership network. Result Oriented professional in the development of new products and applications, the promotion of existing products and the investigation of new applications for existing products. Hands-on experience with laboratory testing communicating results presenting technical topics and working with customers to solve application issues. He achieved 20 micros resolution in FDM / FFF technology in Polymers like PLA SSPLA with the help of Motors, Drylin bearings with temperature control system. He is truly passionate about his work and always agerto connect with other Engineers to enhance knowledge and share the views. While he
