1. ACTIVITY POSTER:

ACTIVITY DESCRIPTION:

Students' Council PCE organized a Technophile event to promote the skill of public speaking in the second year students. The competition was decided into two categories namely "TechPromptu" the extempore competition which was organized for the students of computer science and IT branches and "Quizzard" the quiz competition which was organized for the students of EC, EE, Civil and ME branches.

The registration forms were sent to students via email and other social media platforms on 6th of November and the competitions were organized on 9th and 10th of November.

TechPromptu was a single participant competition in which every student was given a technical topic and a minute to think about and then next minute to speak on the topic. Points were awarded on the basis of their confidence and how good they are able to speak about the topic. All the topics were chosen on the basis of technical advancements in the respective fields of the branches.

Quizzard was the team event with each team consisting of two members and multiple questions related to their specific branches were asked with no question to be passed or repeated. Points were awarded on the level of correctness of the answers. Questions asked were based on the 1st year and 2nd year courses and the recent advancements in the branch in which the student is studying.

The Tech-Promptu was conducted on 9th of November and the platform used was Google meet. And the Quizzard was also conducted on the same platform on 10th of November. The use of Google meet was done due to it being known to everyone and easy access.

After the completion of both events the results were announced on the Instagram account of Students' Council PCE. With that the whole event was successfully completed.

FEEDBACK AND PARTICIPATION COUNT:

We get many participants and the activity is done according to plan. Everyone has done great job. This could only be possible because of the perfect and hardworking team

● **FEEDBACK AND PARTICIPATION COUNT:**

The event was conducted successfully under the mentorship of High Authorities, Head Coordinators, Coordinators and others. Students from Poornima group as well as the other colleges appreciated our efforts. All faculties and staff members congratulated us on the successful conduction of the event. Any misbehave, ill-mannered, or other kind of intolerable activity did not happen in the college premises. All the required details of the events were provided on time. Closing ceremony, with the gracious presence of head staff of the college was conducted successfully. Certain small problems were solved immediately due to the timed response of all our team members. We, the Tech-X-Kriti team can say that it's our discipline and team work towards the fest that give us the confidence to face challenges whenever they come in our path.

Juniors worked with the Third Year Coordinators to grab as much learning and experience as they can to maintain the hierarchy. Hope, the students of Poornima group always work together to continue the legacy of Tech-X-Kriti. Approx. 500+ Students All over the Poornima group of Colleges participated in the event and it was a great success.

Report of the Activity On Modern Era Technologies and their benefits

NAME OF ACTIVITY: Modern Era Technologies and their benefits

DATE & DURATION: June 08, 2020 & 12:30 PM- 1:30 PM

TYPE OF ACTIVITY: Extra-Curriculum Activity/ In House

ORGANIZED BY: Coding Club

DETAILS OF ACTIVITY:

Webinar was conducted on 30th November in which Vishesh Garg(captain) explains all about club such as what core team members are going to teach, and what club do, which technologies are trending nowadays, and why we need to learn new technology.

Such as

- **Cloud computing(AWS)**

Cloud computing is the on-demand delivery of IT resources over the Internet with pay-as-you-go pricing. Instead of buying, owning, and maintaining physical data centers and servers, you can access technology services, such as computing power, storage, and databases, on an as-needed basis from a cloud provider like Amazon Web Services (AWS).

- **Linux**

Linux® is an open-source operating system (OS). It was originally conceived of and created as a hobby by Linus Torvalds in 1991. Linus, while at university, sought to create an alternative, free, opensource version of the MINIX operating system, which was itself based on the principles and design of Unix. That hobby has since become the OS with the largest user base, the most-used OS on publicly available internet servers, and the only OS used on the top 500 fastest supercomputers.

Perhaps the best thing about Linux is that it's open source. Linux is released under the GNU General Public License (GPL). That means that anyone can run, study, share, and modify the software. The modified code can also be redistributed, and even sold, but must be done so under the same license. This differs greatly from traditional operating systems—Unix and Windows, for example—which are proprietary, locked-down, and delivered as-is and unmodifiable.

- **DSA and Competitive programming**

DSA help to crack coding interview and help to built logics

Personal interview

Conducted a personal interview round so that 1st year student also become the part of club

Before personal interview core team member provided them some study material of aws and red hat Linux so that they can get a basic idea of it and then in personal interview core team member ask them some very basic question related to Linux.

FEEDBACK/ATTAINMENTS:

- Some Valuable Feedbacks from Students:
- Sir to me cloud was very good and easy to understand. Honestly it was interesting. And Machine learning, I understand it a little bit.
- The session was amazing. Thank you so much sir for explaining all the things in such an easy way.
- The webinar was really interesting and gave us a good insight on the latest technologies in the modern era.

1. ACTIVITY POSTER:

2. ACTIVITY DESCRIPTION:

Student's Council PCE has organized a session on HR & LABOUR LAWS SIMPLIFIED. The session was aimed to simplify HR-related functions, responsibilities and the basics of HR laws and to get good career guidance. The program was organized under Ms. Kalpana Sharma and this informative session was taken up by Mr. Amit Vaid Jain, Founder, AVJ HR Solutions.

The interactions made sure that there was no low point in the session. It gave everyone a clear perspective for the long run. All the factors affecting the future of the students were addressed and the myths and superstitions regarding the HR related functions were removed to a large extent. They showed presentations and various helpful sites for under graduates.

It was a very informative and interactive and fun session. With that all, the whole session was successfully completed. Total crowd was of 30+ including all year PCE students

Crafting a Successful Engineers Career

NAME OF ACTIVITY: Crafting a Successful Engineers Career

DATE: June 26, 2021

TYPE OF ACTIVITY: Extra-Curriculum Activity/ In House

ORGANIZED BY: Coding Club

DETAILS OF ACTIVITY:

- ECE Department, Poornima College of Engineering has organized a live interactive session on “Crafting a Successful Engineers Career”. The session was for all the Students from 1st & 2nd of our colleges. The motive of the wonderful session was to motivate and add a vision and guidance for the 1st and 2nd year students so that they can understand what is the right path to follow for a successful career in engineering.
- The positive part of the session was the doubts and queries asked by the students regarding GATE exams, lifestyle, job profile, Competitive world, difficulties in cooperate sectors etc. were solved and answered which encouraged them to explore life more. After this session many would be clear with how and when they can start preparing.
- The set of questions were asked their in the live session by the students themselves and were also given the facility to mail there questions in case they have any so that queries can be resolved. Some of the questions were like:
 - How and from where to start the preparation for GATE?
 - What problems do you faced at the starting of your job?
 - How to maintain the consistency while preparing?
 - Should we keep a backup while preparing?

The speaker of the session was: Kushagri Mukhija, Material Manager at Fertilizer, a Engineer, ONGC (New Delhi), Alumni, Poornima College of Engineering

- The speaker Miss. KUSHAGRI MUKHIJA resolved the queries of the students and was a very efficient

way and solved the doubts about the various competitive exams. Along with that, she shared her preparation journey with others than how she got selected in the ONGC(New Delhi) and also she brief about various processes or method to be kept in mind like:

1. Aptitude Preparation
 2. Vocabulary Enhancement
 3. Personality Development
- In the session, she also gave a brief about how she achieves her goals, how passion and determination played role in achieving her goal.. The session was very interactive and a total of 25+ registrations and students were there.
 - The session took place on Microsoft Teams under the guidance of Dr. Garima Mathur Ma'am.

Coordinators of the event:

1. Tripti Somani (Anchor) is from the first year CSE branch who welcomed our Guests and Faculty and controlled the flow of the session.
2. Prerna Sharma (Technical and Backend) are from the second year CS branch who controlled the technical terms and conducted the session successfully.
3. Reshab Deora, Divyanshu Dhakar, Tripti Somani, Prerna Sharma (Questioners)

A REPORT ON BLANKET DRIVE

♦ **NAME OF ACTIVITY:** Blood Donation Camp

♦ **DATE & DURATION:** 24th Jan, 2022

♦ **DETAILS OF ACTIVITY:**

The world continues to suffer another year of a dreaded pandemic, but that does not stop us from watching out for you. The Helping Hands group in collaboration with shivanjali NGO with the same motto, organized a Blanket Donation Drive at Manna Children's Home Jaipur, on 24th January, 2022. Our team went among those beautiful little smiles, and distributed 50+ blankets and food packets, along a schedule full of some fun activities like, Games, painting activity and interaction session for the whole day!!

The blanket drive was held on the occasion of republic day, hence during the painting competition the title of the painting was Republic day itself, so as to build their skills along with creating a sense of respect for our country as well as to make them understand the meaning of patriotism. Our team reached The Home at 12:30 pm, the little smiles greeted them on the door and hence after some interaction, the painting competition was held and the rest of the schedule followed accordingly. The team returned from the Home around 4pm, bidding adieu to the twinkling little eyes, and fulfilling what we took upon us, as our duty.

♦ ACTIVITY DESCRIPTION:

Human Rights Day is marked annually on December 10 around the world. The day is marked to raise awareness about cultural, social, and physical rights and to corroborate the welfare of society in all possible contexts. The day commemorates the United Nations General Assembly adoption of the Universal Declaration of Human Rights (UDHR) in 1948. To increase and develop awareness about the Human Rights, the Helping Hands Group of Poornima Group of Colleges had organized activities for the student of PGC. Activities are Poster Awareness, Video Awareness, Instagram Polls and Quiz. The entries were accepted from 7 December to 9 December (12 PM) 2020 through Google forms. We got a good number of responses from the students. All the responses were posted on our Instagram page (@thehelpinghandsjaipur). On 10th December the Instagram polls were started that contain various information regarding questions. Our team members did a great job and made this activity successful. The purpose of this day was to raise awareness among people to fight for their rights and to stop those who are violating human rights.
