AN OFFICIAL NEWSLETTER

There's always an unseen bridge between the two vast seas of success and failure. For a educational institution, there'll never be such a medium as their alma mater that would help it cross the bridge and march towards success. The seeds of the institution were sown in 2000 with a dream of creating a holistic education environment that nurtures students and enhances their skills to build themselves. In the last few years, our students have reached the peak of their careers, and we can see our alumni all over the world, in every field. In the whole process of building and connecting, there's a pivotal role of an alumni association, and it is no denying the fact that Poornima College Alumni Society has beautifully played the role of a perfect pacemaker, commendable approach to maximizing alumni engagement was used by them, and I wish them good luck for their future projects.

Sh. Shashikant Singhi
(Chairman, PGC)

An institution plays a vital role in framing the students, so they can direct it with their knowledge and resources in future. Seeing our students turning into prominent professionals, always filled with a sense of satisfaction and pride. Being a part of the Poornima Group for a decade now, the contentment of experiencing a bunch of juveniles becoming responsible executives is pleasurable. Having firm connection with past students always helps the institution to build up its framework, and we have seen Poornima College Alumni Society effortlessly working towards embracing and enhancing our relationship with the alma mater. I truly appreciate their vision of bringing the Alumni together and flourishing the institution with their intellect. With the publication of this newsletter, I wish for another year with incredible achievements and progress.

Dr. Mahesh M. Bundele
(Principal & Director, PCE)

Convocation

Stopping, seeing, and analyzing. These are the crucial steps every management encounters while taking any decision in shaping its progress. After analysis, there is a definite need to implement it, and no educational institution can ever implement any of its decision if it does not have a strong connection with its past students. In this 10th edition of the annual newsletter of Poornima College Alumni Society, it is my immense pleasure that I have the privilege of delivering my message to the alma mater of our college. I cannot contain my happiness when I look back on how much progress our students have made in all fields, in almost every top-notch company, not only in India but also overseas. I firmly believe that our alumni must always stay in touch with their college, as it not only provides an opportunity to shape young minds but also opens hundreds of pathways to explore almost every sector of the economy. I admire all the efforts the team of Poornima College Alumni Society has put into events, sessions, and the Alumni Meet 2022. I warmly welcome you to take the time to visit me or any senior administrator of the organization to find out how much we have blossomed as a whole!

Ar. Rahul Singhi

(Director, PGC)

Every ending is a starting of the journey, swifter and more amiable than earlier. Time flies leaving behind the memories of individuals and their achievements. One more year passed with the graduation of another batch from our institution, proceeding them to a new phase of the equation with us as alumni. Learning and growing with student requirements has always been our foremost motive, and an alumni plays a vital role in keeping us informed about the affairs of the cooperative world and surroundings. During the span of our four-year indulgence with students, we manifest to build them, to make decisions with courage, stand up to peer pressure, and emerge successfully even through drastic situations. Now as they have started on their new journey, we hope for an everlasting tie with them in the future and wish them luck for uplifting to greater heights. With this, I extend my sincere gratitude to the Poornima College Alumni Society for holding us connected to our former students and helping to build and strengthen our bond with them.

Er. Pankaj Dhemla

(Vice Principal, PCE)

Over the years, our continuous efforts are to provide and nurture the students with pre-eminent sources and opportunities out there. The alumni are the strongest pillar which empowered the institution with their guidance and experiences. Associating with the alumni, assists us to come up with amicable relations with industries and the corporate sector. The exceptional diligence and performance of our alumni uphold us with continued success and growth in various fields. Alumni relation program operates as a connecting link between the alumni and the students. The program functions to build up the relationship with alumni, which helps us to turn the latent possibilities into reliable opportunities. Expecting a vast alumni network to back us in future, i would like to thank the alumni for directing us with their valuable advice and time.

Ms. Dipti Lodha

(Director Corporate Relations,

Placements & Training, Alumni Relations)

The vision of Poornima Group has always been carving the student, by acknowledging their potential. With a combination of hard work and dedication, we have emerged as a prominent educational institute. In the recent past, everyone has witnessed the quality with which we inculcate our students to achieve prestigious positions across the world. As attaining success is not only associated with academic excellence, but also the ethics and values that one has. Similarly, faculty at Poornima instil the scholar with morals that needs to achieve perfection in life. The legacy of this vast institution is protected by the sheer brilliance of its alma mater. The expertise of our alumni in various fields, provides us with great assets overseas. Instead of the tough time we all have gone through, Poornima College Alumni Society tried to maintain a constant bond with our alumni. The various events and meets that had been organized by them after the pandemic, strengthen our relationship with the alma mater. As a member of Alumni Society, I would like to extend my gratitude towards the students and wish them luck for the successful publication of their newsletter.

Mr. Amit Gupta

(Chief Proctor, PCE)

The perfect blending of all colors makes a shade so magnificent that no one can take their eyes off it. Similarly, for an institute, you need a nice blend of every component to make it achieve success. Keeping in mind everyone and everything and walking hand in hand for the past 18 years, we have our students reach every corner of the world. As office executive of Poornima College Alumni Society, I've always ensured maximum connectivity between students and their Alumni. This outreach has not only made the Alumni aware of their fellow juniors working in the same stream as they are but also has inculcated the homely feeling of relativeness among the students. I hope the upcoming session chimes the bells of triumph in the lives of each one of us.

Mrs. Alka Raizada
(Office Executive, PCAS)

No matter how long ago we graduated or how distant we are from the college campus, I am sure all of us think of Poornima as our home away from home. Today I feel honoured to share this message as a representative of Poornima College Alumni Society (PCAS) and express my gratitude to the management of Poornima College, founding members and the entire family of Poornima for giving me this opportunity. PCAS has evolved from Poornima's vision of creating knowledge-based society with scientific temper, team spirit & dignity of labour to face global competitive challenges. I envision our PCAS family as a global ecosystem of support, collaboration, respect & success. We sincerely desire a lifelong relationship with each one of you and want you to feel connected with your Alma mater and Poornima family no matter where you find yourself in life. we are determined to find meaningful ways for you to strengthen your bond with alma mater. We are working towards Alumni Engagement Strategic Plan which is designed to provide you with a foundation to Compassionately "giving back" to the alma mater and change lives and also find meaningful ways to create opportunities for you to enrich your lives. Look forward to hearing more about the plan and I look forward to partnering with you in this process.

Mr. Ajar Mathur
(President, PCAS)
Batch 2005 (Alumni)

WORDS OF WISDOM

From Advisor Desk :

Smt. Renu Singhi
(Advisor, PCAS)

As easy as it may seem, the road of patience and perseverance is the most rugged and challenging one. In the contemporary world, where everything is a race, the shortest is considered the easiest. The risks associated with this approach are numerous and strenuous to rectify. There is no doubt that the path less travelled is the most reliable and most understandable way to reach any goal. Throughout its history, Poornima College Of Engineering has focused on whole soul development for its students. Not only have we always promoted academics, but also we have motivated with the formation of the Poornima College Alumni Society, our main motive was to build a strong path of guidance between our Alumni and our present grad students. I have my full faith in the institution and the way it is functioning, and I hope that with the combined efforts of everyone, we will altogether surely reach the zenith.

From Editorial Pen :

Dear Readers,

Greetings to all,

Together we are a triumph, together we are development, together we are a beginning. We have finally created the yearly newsletter for the session 2021-2022 after considerable resolution and commitment. The last year's interruption brought on by the coronavirus outbreak and it's effects encouraged us to move the conversation along. Through this newsletter, we are overjoyed to share all our current as well as past activities and contributions to the institution and to society. We would like to recommend the Alumnus to take a break from their busy schedule to share their individual experiences and viewpoints with everyone reading so, that we can take notes and apply that understanding for ourselves. We express our profound gratitude to our alumni, professors, and seniors for instructing, managing, and inspiring us at every turn. In the spirit of being upfront, we hope you will treasure this example of inventiveness by energized editors like us and that this Newsletter reaches you. Enjoy Reading

FOUNDING MEMBERS

With the vision of strengthening the bond between the Alumni and the institution, Alumni Society was created. I hope that may it achieve the same goal with unvarying determination in the future.

Mr. Arvind Balan
Founder, Maxperience
(2000 - 2004)

May the Alumni Society prosper and the deep-rooted affiliation between the institution and Alumni become more vehement.

Mr. Sudhanshu Goyal
Founder & Director, Health Genie
(2001 - 2005)

Hope to perceive the growth of the institution with Alumni society as its backbone and may it gets more diverse in the upcoming years.

Mr. Ashok Jain
Proprietor & Social Worker
(2000 - 2004)

ALUMNI MEET

An Institution is known by its alma mater as they are the driving wheel of it. Similarly, an association plays a proactive role in building up the students to face the challenges of the competitive professional world. It is a matter of great pleasure and honor for the institute when its students spread their wings and take flight into the infinite sky. In the wake of worldwide crisis, Covid-19 Poornima College Alumni Society opt to conduct the Virtual Alumni Meet for connecting the alumni across the overseas. The objective was to reunite all the alumni with different working back grounds by reviving old memories of college days and filling them with a sense of nostalgia. The first Virtual Alumni Meet was successfully conducted on 8th January for the alumni of 2004-2008 batches. Following the commencement of second on 26th January for the batches from 2009-2013 and third on 30th January for the batches from 2014-2019. The various meet were conducted on MS teams at 4:00 pm with the gracious presence of Ar. Shashikant Singhi, Chairman Poornima

Group, AR. Rahul Singhi, Director Poornima Group, Mrs. Renu Singhi, Advisor Poornima College Alumni Society, Dr. Mahesh M. Bundele, Principal & Director, Poornima College of Engineering and Mr. Arvind Balan, founding member, Poornima College Alumni Society along with other faculty members. Having an aim to translate latent possibilities into effective and benefit for the individual and society. The Virtual Meets were an open house for suggestions about improving the current policies and building new structures, in which alumni acknowledged the plans and showed willingness of participation in future initiatives. With a massive success of Virtual Alumni Meet organized by Poornima College Alumni Society, a proposal of arranging Offline Meet was put forward to strengthen the ties between alumni and the institution by taking them on a jubilant ride of euphoric days. Hence, on 13th March 2022, Sunday the annual 'Alumni Meet' was organized at Poornima College Of Engineering which saw the participation of 200+ alumni from various sectors.

The event was graced by Dr. S. M. Seth (Chairman, Emeritus, Poornima Group), Mrs. Renu Singhi (Advisor, Poornima College Alumni Society), Ar. Rahul Singhi (Director Poornima Group), Dr. Mahesh Bundele (Director and Principal, Poornima College of Engineering), Mr. Amit Gupta (Chief Proctor), Dr. Narayan Lal Jain (Vice Principal, Poornima College of Engineering) and Dr. Rekha Nair (Dean 1st Year). Mr. Arvind Balan and Mr. Sudhanshu Goyal, founding members of Poornima College Alumni Society, enlightened and guided us throughout the event. The event began with registration and traditional welcome from 3:00 pm onwards. A tour to campus for the Alumni was arranged that focused on the advancements in the campus since the time they graduated. They were then asked to give their interview, enlighten their juniors with their experience and guidance. The Alumni were then led to the PCE garden where different activities like musical chairs, tug-of-war, box cricket, paper mask dance, ping pong, etc. were held to rekindle the zest for the rest of the evening. There were various selfie props and a photo booth that complemented the 'Rainbow of Culture' theme of the event followed by refreshments. There was a polaroid hanging booth that was a collection of memories of past years captured and sewn together, this increased the engagement time and interaction of Alumni. The evening was made mesmerizing by dances, solo music performances, and band performances which were accompanied by dinner. The event was made a memorable one by the gracious words of the dignitaries. They spoke about the initiatives Poornima College is taking for strengthening Alumni relation and appreciate the efforts of Alumni whose presence made this event possible. Mr. Ajar Mathur, the newly elected President of Poornima College Alumni Society spoke about his vision to take alumni relations to a new extent and he also shared the stage with the music band and added colors to the evening. The eve was concluded by captivating fireworks signifying a successful meet.

DEGREE AND AWARD CEREMONY

After a pause due to restrictions of deadly coronavirus, Poornima College of Engineering, Jaipur conducted the 7th convocation ceremony for the batch of 2020 on 5th march. Event was honoured with the gracious presence of chief guest Dr. Arvind Shaligram, Director ISRO-SPPU Space Technology Centre and CEO-SPPU Research Park Foundation. The ceremony commenced with the kind words of wisdom of reputed guests, whose vision motivates and enlightens the students. Seeking the choicest blessing of Maa Saraswati, the event inaugurated with lighting of lamps by chief guest and respected dignitaries followed by a beautiful Ganesh Vandana performance by the student coordinators of PCAS. Eventually, students from different branches graced the event along with their parents with great enthusiasm.

Afterwards, the respected dignitaries Mr. M. K. M Shah, Director General, Poornima Group, Jaipur , Dr. Mahesh M. Bundele, Director, PCE, Jaipur, Dr. Narayan Lal Jain, Vice Principal, PCE, Jaipur ,Dr. Garima Mathur, Faculty Advisor, Students' Council, PCE, Jaipur granted the degree to the recipients with their branch HODs. With the end of degree distribution, respected chief guest Dr. Arvind Shaligram imparted the students with blessing and epilogue the ceremony. Sh. Devendra Somwanshi, Registrar, PCE proposed the vote of thanks and expressed their heartiest thanks to all the faculty and students who made this event a massive success. Succeeding the vote of thanks, Poornima Gaan and National Anthem was sung by the student coordinators of alumni society. The event ended with group photographs of students with their branch mates and branch HODs respectively.

KNOWLEDGE PLAY

My Corporate Learning

Being a part of Big 4 has always been a dream and I got the opportunity to live my dream a decade ago! 10 years! Nearly a quarter of my age and three quarters of my career. Though it's been a long journey, yet it still feels like I joined just few months ago – and that excitement, learning opportunities, challenges played a big part in keeping that feeling afresh.

My Guiding light

There's been ups and downs over the last 10 years, of course, but I'm still running strong. I believe in the organization and most importantly I believe in my leadership.

I still vividly remember my day 1 at EY and my 1st biggest leaning came from my first Manager "You must always keep your entrepreneur hat on" and I haven't forgotten it till this day! These words could easily be passed off as corporate jargon, but in my case, I got the platform, opportunity and backing to be an entrepreneur!

My 2nd and quick learning came from my Global Leader – he taught me how to treat team at an equal or at a higher pedestal. This learning gave me my wonderful team where I have invested my time and emotions. My team has been the reason behind me waking up excited to join the office everyday since last 10 years. They have been the reason behind every success I tasted and rock-solid support when I couldn't.

I'm very proud of my people management skills but when I started, I had my share of problems in delegating. That's when my CEO came to my rescue with my 3rd learning. He once said "make your work so redundant that someone else can pick it up. And only then only you would have capacity to pick newer opportunities and learn more". This simplistic learning is harder to really execute especially in the corporate world where we tend to save our niche or look at work as your differential skill. However, once you put it to good use, it gives results 100% times!

There is a plethora of similar learnings that has shaped me into the professional that I am today; and I am very proud of it! If I can replicate my own employment experience for my peers and colleagues, then I know that I'm doing my job right.

My 3 mantras to all budding corporates -

"A rolling stone gathers no moss." Well, there is merit in being a rolling stone. *Hang on and read on! It is important to be a rolling stone in the context to constantly* keep pushing your job boundaries. Any job comes with the base-line expectations of your roles and responsibilities. But your growth and progress largely depend on how you take up and deliver beyond your core areas.

"Know what kind of a stone you are. That is the second important thing". It is important to know who you are as a person and as a professional. It determines your equity within the organization, within your department and within your team or group of work colleagues. Every team or unit has their own version of Ms/Mr: Perfect-at-Execution, Creative, Hard worker, Strategic Mind, even a Slacker … so on and so forth. Knowingly or unknowingly, we all get labelled for a persona. It's good to be known for something positive and that becomes your differential edge.

"Keep Rolling. And that is the final thing". Keep looking for opportunities outside your comfort zone. It is difficult, at times we must change our routine, upskill and in-turn reinvent ourselves. But it all adds up in the long run.

Devsecops-Appsec Future

Today, online applications have become more prone to attacks, leaks, exploits, and new kind of vulnerabilities. DevSecOps is a cultural shift in the software industry that tries to include security into the rapid release cycle specific to modern application development and deployment. When developers leverage the right set of tools, they can catch security issues early, resulting in cost optimization. As security tooling shifts toward being integrated into DevOps workflows, more and more development teams are taking ownership of running and automating security tools and tests. Eliminating repetitive manual work of security team made security testers results with higher productivity. Also helpful to keep up with the pace of modern development. Methods like SAST ,DAST and vulnerability scanning are employed at different stages of pipeline to test the applications thoroughly. Developers are becoming much more security oriented, as are the development tools that come with security features included. Shift left testing integrates testing fusion of security-practices as early as possible in the CI/CD pipeline.

Covid 19 Impact – The Future Work Is Already

Workplaces can be broadly classified in two types, ones requiring close interpersonal (on-site) interactions (like factories, medical care, retail, travel, hotels etc.) and others in which the workers mostly work on computers and interactions can be digital.

Pandemic made companies evolve faster—

Covid-19 pandemic has changed the way we all work, and it has pushed the companies and consumers to adopt new behaviors like more digitization of all processes; it is here to stay however will continue to evolve. The workplaces which require more physical proximity has seen accelerated adoption of automation, robotics and AI as the companies look to reduce dependence of employees coming to work and meet surge in demand (due to more trade moving to e-commerce). This will pose a risk to jobs which require low skills and customer sales/service roles. Demand for employees in STEM jobs would see a growth reflecting need for more automation and tech solutions.

Work from home –

Perhaps the most obvious impact of the pandemic is employees working remotely. Remote work has allowed companies to tap into talent in tier 2 and tier 3 cities and to those who were unable to relocate to big cities due to personal reasons, hence creating more opportunities for such employees. Adoption of digital technologies like virtual meetings, collaboration tools would mean more demand for these products and hence companies need to focus on upskilling their existing employees for new ways of working.

While most of the work can be done remotely, some are more effective when done in person like brainstorming, negotiations, critical decisions, onboarding new employees etc. Therefore, we see companies are now shifting towards Hybrid ways of working where employees primarily work from home and come to offices for collaboration and critical meetings.

Hybrid is the future –

While work from home provides flexibility to employees to manage their personal as well as work commitments as per their convenience, however we are social creatures by nature, we depend on each other for everything, employees find meaning & comfort in meeting their teammates and discussing work related matters; hence companies are now ensuring they provide enough avenues for teams to meet at regular frequencies.

Both companies and employees have shown extraordinary flexibility and adaptability in responding to the pandemic with innovation and empathy, they will continue to evolve the workforce in ways that will lead to a brighter future of work.

Batch-2005 IT

Big Data Analytics

Big data analytics examines large amounts of data to uncover hidden patterns, corrections, and other insights. With today's technology, it's possible to analyze your data and get answers from it almost {immediately-an effort that's slower and less efficient than more traditional business intelligence solutions. "The concept of big data has been around for years; most organizations now understand that if they capture all the data that streams into their businesses, they can apply analytics and get significant value from it. But even in the 19506, decades before anyone uttered the term "big data", businesses were using basic analytics to uncover insights and trends. The new benefits that big data analytics brings to the table, however, are speed and efficiency Whereas a few years ago a business would have gathered information, run analytics, and unearthed information that could be used for future decisions, today that businesses can identify insights for immediate decisions. The ability to work faster and stay agile gives organizations a competitive edge they didn't have before. Big Data got a major value while helping organization in:

1. Cost reduction. Big data technologies such as Hadoop and cloud-based analytics bring significant cost advantages when it comes to storing large amounts of data plus they can identify more efficient 'ways of doing business.
2. New products and services. With the ability to gauge customer needs and satisfaction through analytics comes the power to give customers what they want.

Davenport points out that with big data analytics, more companies are creating new products to meet 'customers' needs, Entire business sectors are being reshaped by big data. In fact, with the "right mindset, data can be cleverly used to become a foundation of innovation and new services. 'Big data analytics applications enable big data analysts, data scientists, predictive modelers, statisticians, and other analytics professionals to analyze growing volumes of structured transaction data, pls other forms of data that are often left untapped by conventional HI and analytics programs. Driven by specialized analytics systems and software, big 'data analytics offers various business benefits, including: New revenue opportunities, more effective marketing, better customer service, Improved operational efficiency.

EVENTS & CELEBRATIONS

Keeping the mind fresh and healthy bestows one to aspire above their limits. Just a casual walk through the aisle of nature, nourishes the soul and unfolds a new perspective within you. To manifest the student with beauty and sovereignty of creation, and to ensue them with motivation of being wholesome. On 9th February 2022, Mrs. Renu Singhi organizes an energetic and replenish cycling session for the coordinators of Poornima College Alumni Society. Being known for her audacious attitude, she has made to her name many milestones. Within a ride from Poornima College of Engineering to Patrika Gate, Jaipur she taught students that age can never come between the dreams and aspirations of an individual. The iron lady inspires the coordinators with her strong and confident attitude and encourages them to excel in life.

In the memory of our renowned alumni and profound member of Poornima College Alumni Society late Udayveer Bhati, a blood donation camp had been organized on 28th Feb 2022 in the Poornima College of Engineering. The camp was successfully arranged with the help of coordinators and students' council, Poornima groups. Approximately 200+ students and faculty members came forward in the accomplishment of this noble deed. The camp was a collaboration between Poornima Group and Monarch Blood Center, Jaipur. This led to the conclusion of the event with donors being recognized with a certificate for their participation and involvement.

Surpassing the two years of covid-induced restrictions, students at Poornima College of Engineering witnessed the biggest fest of the institute on 17th Feb 2022. "Aarohan 2k22" was a three days event, celebrated with gaiety and enthusiasm, showing the team spirit and coordination capacity among students. The annual fest of college unfolds with a string of events that includes, dance, music, creative arts, technical contests and various sports activities, stimulating the virtual games. The fun filled event provided students with a platform to exhibit their talent and filled the ambiance with remarkable performances and competitions. Adding to the stars of dazzling fest, night had been decorated with the magnificent staging of prestigious singers and djs at OAT in Arbuda, PIET. Subsequently, the joyous fest commenced with a blend of cultural and western vibe unfurling from it.

As entering college, students expect a startling beginning of their four year journey, where they desire to meet different people and build a friendship that lasts forever. Freshers day is among the most awaited moments for a student, as it embarks on their ride of acquainting with people and getting to know them. The idea behind coming with a day full of competitions, games and fun activities is to build up a genial environment between newcomers and former students of college. After the panic of covid-19, Poornima College Of Engineering organized "Prabhav 2k21" as freshers day on 4th December 2021 for the batch of 2k20 and 2k21. The various activities lined up aimed to give students a platform to exhibit their talent and creativeness.

Beginnings are an integral part of the relay of life. Whenever an individual starts off his journey, many challenges cross his path. When a students enters college they needs to indulge in the environment and be comfortable with the surroundings. To ensure this, a three weeks induction program had been organized by the Poornima College of Engineering. The objective of the program was to welcome the students by acquainting them with the joy of learning and introducing them to the functionaries of college. Leading students to explore and improve creative expression, teamwork and analytical skills, the outcome of the program ensures that students have an insight into the workspace and management of the institution.

For enhancing the technical skills of an individual by providing a platform to them. Aadhar is an initiative taken by the zircon club. The event was started in 2007 by Poornima as an intent to let students develop the ability of working in a team and enriching their potential by executing their ideas. With the opening of colleges after the settlement of Covid-19, Poornima College of Engineering conduct the biggest technical fest led by the students of first year to implement their theoretical knowledge and apply it to show the practical results. Aadhar comprises of various fields in which the student can showcase their talents and skills. Like robo-war, robo-soccer, robo-race, line follower, circuitry, machine-o-mania and spud gun. With great enthusiasm and dedication shown by the students of first year, and the support of seniors who guide them in every step, Aadhar 2k21 was a great success.

# INTERACTIVE SESSION

Session on role of Alumni in technical Education and Alumni Student Mentoring Program

Experience is the condiment which turns wounds into wisdom. Learning from the happenings of life enlightens with the flavor of success. To illuminate the students with knowledge and chances that he faced stepping out of the institution, Mr. Arvind Balan, Alumni from the batch of 2004 and the founder member of PCAS interacted with 3rd year students. The session was a discussion about various future aspects that can be helpful to the students. Sharing his thoughts for the alumni society, he acquaint the students about getting his placement through alumni society while pursuing MBA. At the end of session he interacted with students and answered to their query.

Career in Aviation - The World of Flying Machine

Department of Mechanical Engineering, PCE organized an alumni session on the topic "Career in Aviation The World of Flying Machines" on February 11, 2022. It was delivered by Mr. Madhav Dadhich, Cadet Pilot, Indigo Airlines. The main objective of this session is to get students with the concept of Aviation. Mr. Madhav Dadhich, discussed that the aviation industry, an integral part of society, needs qualified people for an array of aviation careers. Thereafter, Mr. Madhav Dadhich, clarified the concept of aviation as a course and career profile is only for those who are passionate about this field. He simplified that aviation is the ability to identify with people and relate to them in a way that increases your influence with them.

Session on Career for Students in Upcoming Technology

Our alumni Mr Sumit Chaturvedi passed out from the batch of 2004, conducted an interactive session with the students of 1st, 2nd and 3rd year on "Career for students in Upcoming Technology". The session helped the students in knowing about the various technologies that are currently the main fulcrum of the industries. As described by Mr. Sumit Chaturvedi, there were lots of gaps between the industrial knowledge and educational system 1-2 decades ago. Though the assistance of Ar. Shashikant Singhi and Poornima College of Engineering helped the students to attain a decent placement. He concluded the session by sharing his journey and giving us the mantra of exploring new things and gaining experience.

Design Tools For Value Added Engineering

Department of Mechanical Engineering, PCE organized an alumni session on the topic "Design Tools for Value Added Engineering" on February 14, 2022. It was delivered by Er. Umang Dadheech, Founder CAD Essentials and Er. Rishabh Natholia, Course Counsellor, CAD Essentials. The main objective of this session was to get students with the concept of designing tools for the design of 2D & 3D objects with the help of Revit, CAD and BIM. Er. Rishabh Natholia, discussed that the design industry, especially BIM, an integral part of the design industry, needs qualified people for the design of products. Both of the Alumni explained that one of the common misconceptions about value added engineering is that it is focused solely on trying to make products at a lower cost.

Build your image online & offline

Department of Computer Engineering, Poornima College of Engineering hosted a session on April 08, 2022 from 2 PM to 3 PM on "Build your Image Online & amp; Offline". Ms. Akansha Agrawal started with how to improve personality in different stages of life. She stressed on the importance of personality development in interviews and meeting and how the small adaptation can help to impress the audience. Some students asked queries about how to improve their personality and appearance. Alumni Ms. Akansha Agrawal, Founder, The Verve Image Counulting deliberated the one hour session interactively in presence of faculty members and students of IIIrd year of Computer Engineering Department.

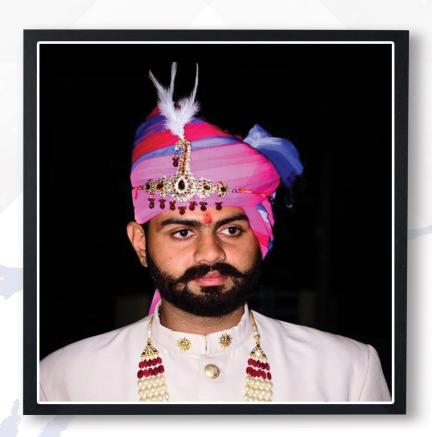

Technical, Communication and life skills

An interactive session was hosted by the Department of Computer Engineering, Poornima College of Engineering on Feb 24, 2022 from 2 PM to 3 PM on "Technical, Communication and Life Skills". Mr Nitin Pamnani, passed out from the batch of 2016 in Computer Science and Engineering started with how to adjust in different stages of life. He advised how to manage workload to manage time and stress. He stressed on the importance of extracurricular activities and their effect on life. Alumni Mr. Nitin Pamnani, Fullstack Engineer, Coterie Systems deliberated the one hour session interactively with the students of second year.

KALEIDOSCOPE

IN THE MEMORIES

Udayveer Singh Bhati

22 JUNE 1999 – 16 FEBRUARY 2022

One of the gems of Poornima College Alumni Society who always encouraged and motivated others to keep hustling towards their goals, he was the person who believed that true networking does not mean meeting people, but becoming the type of person others want to meet. Deeply dejected with the loss of Mr Udayveer Singh Bhati batch of 2021, electrical engineering, who always inspired others to keep hustling towards their goal. We extend our sincere condolences to his family and friends and pray that time will heal and lighten the pain.
